4CRISK's Guide To AI Deployments

PROGRAM STRATEGY AND GOVERNANCE

PROJECT AI INITIATIVES EXECUTION

- Create an AI Initiatives Roadmap aligned with current Roadmaps and Objectives from the business and IT
- Scope the initiatives by high-level accountabilities, reporting, technology and architecture; leverage legal, procurement and 3rd Parties to gain buy-in and resources
- Run and Evaluation/Pilot to confirm/ adapt your assumptions and business case; Prioritize based on ROI and readiness of the business, resources and quality of data
- Execute the project phases, rollout out based on readiness, train your users and evaluate success; be prepared to adapt, share learnings with others; continuously improve
