

# TAUWELD EDGE

Laser Welding

The TauWeld Edge is a professional benchtop laser welder designed to deliver maximum precision in high-intensity work environments. It's ideal for those seeking a balance between performance, operational comfort, and application versatility. Equipped with a 7" touchscreen display, an internal joystick, and advanced functions for adjusting the laser beam, it offers an intuitive and comprehensive user experience.

Thanks to its compact size and build quality, it's perfect for jewelry workshops, dental labs, and industrial departments where repeatability and weld quality are essential. The Plus version introduces the Gaussian Smooth Spot technology, which enables an even energy distribution on the welding spot, ensuring cleaner, more controlled, and aesthetically flawless results.

## PLUS

- Leica 10x Stereomicroscope
- Integrated camera
- High brightness LCD shutter
