

AFFORDABLE COMPACT – AQUEOUS OZONE JET SPRAY
PROVIDING THE UNMATCHED DISINFECTION POWER OF AQUEOUS OZONE

- **TECHNOLOGICAL BREAKTHROUGH** - 9 Internal operational procedures to automatically produce Aqueous Ozone on demand.
- **SAFETY FACTOR** – Water can absorb 5 ppm of ozone. As our ozone infusion process does not exceed this threshold, we avoid off-gas emission which means that our system can safely be used in the presence of people.
- **NO OPERATIONAL PROCEDURES** - Our revolutionary technique transposes an unlimited supply of tap water into powerful aqueous ozone on demand just by pressing the trigger on the adjustable spray wand.
- **OZONE IS FREE** – The ongoing expense of disinfection chemicals is completely eliminated.
- **HEALTH ADVANTAGE** – Aqueous Ozone reverts back to pure water in just 15 minutes. Chemical toxicity and harmful residues are eliminated

SYSTEM ADVANTAGES

- **THE BEST ALTERNATIVE** – The safest and most effective way to utilize Aqueous Ozone's incomparable disinfection potential.
- **NO COMPARABLE OZONE ALTERNATIVE** Avoid the impracticality and safety issues of using toxic gaseous ozone with safe and effective Aqueous Ozone.
- **FULL STRENGTH AQUEOUS OZONE** – Our powerful jet spray produces full strength Aqueous Ozone with no downgrading dissipation compared to many alternative products.
- **AFFORDABLE PRICE** – The Compact Aqueous Ozone Jet Spray is practical and affordable

**PERFECT SOLUTION FOR
 SMALL AND MEDIUM WINE
 AND BEER TANKS**

UNLEASH THE POWER OF OZONE INFUSED WATER
