Conditions of Sale

1. PRICES

All prices shown herein are subject to the addition of GOODS AND SERVICES TAX (GST).

2. FREIGHT

Delivery costs are additional and can vary subject to destination, volume & weight.

3. RETURNS/ CREDITS/ RESTOCKING FEES

All products returned for credit having been correctly supplied against customer order, and returned freight paid to Acuflo Levin within 30 days of original supply, are subject to a minimum of 20% restocking fee, calculated from the invoiced value excluding freight, and being subject to Acuflo assessing the products returned are unused and "as new and in resaleable condition".

All items supplied which have been manufactured or imported as result of a customer's requested specification or imported against a customer's specified supply contract quantity will be deemed as strictly non-refundable.

4. WARRANTY

The product Manufacturer warrant to the purchaser of their products, for a period of one (1) year from date of original purchase for use, that any defective product proved to be caused by faulty workmanship or faulty materials, when correctly installed and used in a normal manner, will be repaired or replaced at the Manufacturer's factory, or Acuflo Industries Limited, Levin, with transport charges prepaid. This warranty does not apply to damage or malfunction resulting from accidents, damage in transit, misuse, or neglect. No allowances will be made for labour, removal or reinstallation of any so-claimed defective products.

5. TERMS & CONDITIONS

All orders supplied against this price list are done so strictly against Acuflo's Terms and Conditions of Trade document sighted and agreed to when opening a credit trading account. Additional copies are available upon request.

WHILST EVERY EFFORT WILL BE MADE TO MAINTAIN PRICES LISTED HEREIN, CIRCUMSTANCES BEYOND OUR CONTROL MAY REQUIRE AMENDMENTS WITHOUT PRIOR NOTICE

INGROUND BOXES

Acuflo Meter Boxes have been the industry standard for 30 years. Quality engineered design using UV stabilised, recyclable polypropylene materials. Available in **Midi** and **Jumbo** sizes. Each size offers three different heights to suit various applications.

Outward taper design prevents uplift and allows stacking to reduce freight costs. The wide base flange provides load bearing stability. Boxes can be fitted with selection of standard coloured lids. Personalised lids and colours available on request and may be subject to minimum order quantity.

Midi Pedestrian Boxes

The Midi Box range is suitable for 20mm inline water meters 20 & 25mm manifold meters and manifold meter assemblies.

Jumbo Pedestrian Boxes

Acuflo's Jumbo Meter Boxes follow the Midi Box design philosophy, only bigger. Jumbo boxes are suitable for larger assemblies and in-line water meters. Maximum of three manifolds can be installed in one Jumbo box using the 3-pce Jumbo base. Multi-port distribution manifolds can also be accommodated, up to 3 outlets.

Trafficable Midi & Jumbo Boxes

High strength SMC lids with steel skeletons inside polypropylene frames, provide 2600kg wheel loading (AS/NZS 3996 Class B). Lids come standard in black finish fitted with coloured & engraved pucks to identify the box application. Lids have AS/ NZS 4586 compliant tread pattern, AMR radio compatible and can be retro-fitted to existing Pedestrian Midi and Jumbo boxes.

Mega Boxes

Mega boxes are suitable for multi-port distribution manifolds and large sized water meter assemblies. Boxes capable of withstanding minimum 2600kg wheel load). Constructed from high strength fibre reinforced SMC, making them lighter than comparable iron or concrete lids. SMC material is UV and corrosion resistant and AMR radio compatible.

BOUNDARY CONNECTIONS

Manifolds and Meter Manifold Assemblies

Dual Check Manifolds are AS/NZS 4020 compliant and provide a fast, low cost, universal installation combining isolating valve, strainer and dual check features within a single boundary connection. They allow a universal co-axial OIMLR49 water meter to be easily retro-fitted. Available in DZR low leaded brass (less than 1.5%) or lead-free composite materials. Security valve options are available which prevent tampering of meters and flow controllers but still allow customer to isolate their supply.

Manifolds can be supplied ex-factory fitted with your choice of Sensus 620 brass or composite meter. Meters are fitted ex-factory with additional security tag.

Flow Control Manifolds & Assemblies

Flow Control Dual Check Manifolds are AS4020 compliant and provide a means of limiting the water supply from 0.4 lpm to 70 lpm.

Flow Control Manifolds are supplied with FCDC cartridge and an additional 456-micron stainless steel mesh filter fitted inside the cap. A security tag is fitted between cap and manifold.

FLOW CONTROL DUAL CHECK MANIFOLDS

VALVES

Diaphragm Valves

Diaphragm Isolating Valves are AS/NZS 4020 compliant with low head loss and ease of operation. The “dry” actuator & spindle design eliminates leaks as there are no stem seals. Available in DZR low leaded brass (less than 1.5%) or lead-free composite materials.

Domestic In-line Meters

Maddalena DSTRP is a premium in line **multi-jet turbine meter**, with full brass body and supplied with 2 tail sets. OIML R49 certified the DS TRP is PN16 rated, with a sapphire & stainless bearing providing a robust, long lasting water meter, suitable for the most challenging environments. Compatible with all types of water and can be equipped with the latest remote data transmission technologies.

DOMESTIC INLINE - MULTI JET TYPE		
DSTRP15	MADDALENA INLINE M/JET CLASS C DN15 x 134	\$ 148.00
DSTRP20	MADDALENA INLINE M/JET CLASS C DN20 x 165	\$ 171.00
DSTRP25	MADDALENA INLINE M/JET CLASS C DN25 x 260	\$ 417.00
DSTRP32	MADDALENA INLINE M/JET CLASS C DN32 x 260	\$ 590.00
DSTRP40	MADDALENA INLINE M/JET CLASS C DN40 x 300	\$ 793.00
DSTRP50	MADDALENA INLINE M/JET CLASS C DN50 x 300	\$ 949.00
RSDS	REED SWITCH FOR ALL DSTRP METERS	\$ 94.00

Bulk Meters

Sensus MeiStream Plus is a high-performance, cold-water meter suitable for industrial, commercial and district metering applications with medium to high flow rates. Horizontal and vertical installation positions offering a high overload capability.

COMMERCIAL - MUNICIPAL WATER METER		
MEISTREAM040	SENSUS MEISTREAM PLUS CLASS C DN40 x 220	\$ 1,371.00
MEISTREAM050	SENSUS MEISTREAM PLUS CLASS C DN50 x 200	\$ 1,371.00
MEISTREAM065	SENSUS MEISTREAM PLUS CLASS C DN65 x 200	\$ 1,701.00
MEISTREAM080	SENSUS MEISTREAM PLUS CLASS C DN80 x 225	\$ 2,011.00
MEISTREAM100	SENSUS MEISTREAM PLUS CLASS C DN100 x 250	\$ 2,365.00
MEISTREAM150	SENSUS MEISTREAM PLUS CLASS C DN150 x 300	\$ 3,094.00

Sensus
MeiStream

Sensus MeiTwin is a high performance, compound water meter that measures high flow rates and very small flow rates for extremely widespread flow profiles. Remote reading capable.

COMBINATION WATER METER		
MEITWIN050	SENSUS MEITWIN CLASS C DN50	\$ 3,776.00
MEITWIN080	SENSUS MEITWIN CLASS C DN80	\$ 5,775.00
MEITWIN100	SENSUS MEITWIN CLASS C DN100	\$ 6,303.00
MEITWIN150	SENSUS MEITWIN CLASS C DN150	\$ 9,822.00
MEITWIN50M	MECHANISM FOR MEITWIN METER DN50, 80, 100	\$ 4,564.00

Sensus
MeiTwin

Sensus WPD is a bulk water meter suitable for high, relatively constant flow rates, such as behind pumps. Can be installed in any orientation, suitable for commercial and irrigation applications.

COMMERCIAL - IRRIGATION WATER METER		
MWPD040	SENSUS WPD CLASS B DN40 x 220	\$ 933.00
MWPD050	SENSUS WPD CLASS B DN50 x 200	\$ 933.00
MWPD065	SENSUS WPD CLASS B DN65 x 200	\$ 1,040.00
MWPD080	SENSUS WPD CLASS B DN80 x 225	\$ 1,127.00
MWPD100	SENSUS WPD CLASS B DN100 x 250	\$ 1,381.00
MWPD125	SENSUS WPD CLASS B DN125 x 250	\$ 1,854.00
MWPD150	SENSUS WPD CLASS B DN150 x 300	\$ 2,090.00
MWPD200	SENSUS WPD CLASS B DN200 x 350	\$ 2,888.00
MWPD250	SENSUS WPD CLASS B DN250 x 450	\$ 5,706.00
MWPD300	SENSUS WPD CLASS B DN300 x 500	\$ 5,933.00
RD01	REED SWITCH WPD METERS	\$ 138.00
