

FLAVOR PROFILE LISTINGS

Dive into our curated flavor profiles—from timeless classics to inventive new blends, let's find the taste that tells your story!

At Simpson Labs, flavor isn't just a detail, it's the difference between good and unforgettable.

Each profile in this collection was crafted with intention, whether you're looking for something clean and refreshing or bold and indulgent. We've organized the flavors by category to make it easy to explore and find the right fit for your product vision.

While every flavor has its own personality, they're all designed to blend seamlessly, stay stable in formulation, and deliver a consistent, high-quality experience. Take a look. If something clicks with your brand or inspires something new, we'd love to hear from you.

The Trusted Choice in Supplement Flavoring

The powdered vitamin and nutraceutical world has experienced significant growth in recent years, driven by increased consumer awareness and demand. Today's consumers seek functional nutrition products that aid their personal health and fitness goals. Dry powder supplements remain one of the most popular and effective product formulations in both sports nutrition and general wellness. Powder delivery systems allow consumers to reconstitute high-dose supplements into their preferred beverage. Single-serving stick packs and sachets now dominate store shelves nationwide, reflecting the market demand for convenient, delicious, and portable wellness options. Because flavor plays a primary role in the success of a reconstituted powder supplement, the expertise of the formulation and flavoring team is paramount when it comes to recipe development.

The Research and Development Team at Simpson Labs offers unmatched knowledge and capability. At our manufacturer's custom Innovation Center, flavor specialists create many of the industry's top powdered supplement products. Our extensive inventory features over two thousand ingredients, ranging from Organics to Trademarked materials. We also feature the largest flavor library in contract manufacturing. Simpson Labs provides comprehensive solutions for all of your formulation needs. Continue reading to discover why the best brands in fitness and wellness trust Simpson Labs as their partner in flavor formulation.
