CHIPPEWA UM PRESCHOOL

*~ A place to play, to enjoy,
to discover and to learn. ~*

The Chippewa UM Preschool Program is a faith-based program, where the Golden Rule is our foundation and we build on that through teaching respect, morals, and values. Also focusing on social interaction, sharing, following directions, health & hygiene habits, responsibility for oneself and belongings and most important, a love of school. These skills are the foundation for future learning.

Our program is based on the philosophy that all children grow and develop to their fullest potential if given the opportunity to explore, create and problem solve with materials appropriate to their developmental age.

We provide developmentally appropriate learning activities and materials that encourage children to achieve their developmental milestones in large and small motor skills, language development, cognitive skills, social and emotional development.

Our goal is to provide a safe, secure, healthy, consistent, creative, challenging and loving environment for each child.

Our curriculum is designed to enhance the intellectual, physical, social, emotional and development of each child. Weekly thematic units of learning provide engaging lessons and activities in language & literacy areas:
