

Commission on Accreditation of Allied Health Education Programs

Each profession in the Commission on Accreditation of Allied Health Education Programs (CAAHEP) system has a Committee on Accreditation (CoA) that consists of experts in the profession who are responsible for reviewing programs and making appropriate recommendations for accreditation to CAAHEP. CAAHEP reviews recommendations received from its CoAs in each profession, assures due process was followed, and takes final action on an accreditation status.

CAAHEP took the following actions at its September 19, 2025, meeting. Actions are identified by profession, action taken, date of the next comprehensive evaluation, and whether a progress report to improve program compliance is required. In some cases, the concentration and/or degree are also specified. Where available, links to each program's website are provided. To view a copy of the most recent accreditation award letter for a program, which includes information about the accreditation decision, visit the program's listing on the Find an Accredited Program section of the [CAAHEP Website](#). Actions are identified by profession, action taken, and date of the next comprehensive evaluation. In some cases, the concentration and/or degree are also specified.
