

Thank you for partnering with CFR by contributing to your Giving Fund. We have special instructions for donating crypto. You will need to transfer crypto assets (BTC, ETH, LTC) directly from your wallet to one of the corresponding wallets below owned by Christian Financial Resources, which are held at Gemini.

Please note, the IRS requires the use of a qualified appraiser for charitable gifts of donated property with a fair market value (FMV) of more than \$5,000 annually. [Charitable Solution LLC](#) can perform appraisals for all Bitcoin and virtual currency donations, as well as assistance with the required IRS Forms. For gifts under \$5,000, please consult your tax adviser as to how to use your transaction confirmation to obtain FMV. For additional information regarding qualified appraisals and appraiser, please refer to Section 1.170A-13(c) and [IRS form 8283 Instructions](#).

## Wallet addresses:

(memo/tag: 1424730395)

Your gift will be processed in 2 transactions. The first transaction should be a test deposit of donated virtual currency worth approx. \$5.00 USD. At this time, please inform us the last 4 digits of your wallet address and the amount transferred. Once the test deposit has been received, CFR will notify you to initiate the second deposit for the remaining balance of your gift. This is to ensure crypto assets are sent to the correct wallet on the correct network.

After both transfers are received, crypto assets will be sold at Market Price. Net proceeds from the sale minus the Gemini Wallet 1.49% liquidation fee will then be deposited into your Giving Fund for grant distribution purposes. CFR will send a confirmation letter of your donation in the mail. Thank you so much for your generosity, which helps fund ministry and change lives.
