Testimonials

"You went beyond any other mediator I have come across in 11 years to enable the parties to reach a resolution of what proved to be a very contentious and awkward case." - Litigation solicitor, contract dispute

"Bruce, we were very impressed with your work on this mediation. We often have similar cases where your approach and experience would be very effective so we certainly hope to use you again on future cases."
- Litigation solicitor, M&A dispute

"I thought you were very helpful and looked to find any avenue to resolve. I would recommend you to anyone in search of mediation."
- Litigant-in-person, partnership dispute

"Throughout the course of this matter, we have struggled to communicate effectively with the other side. It seemed that you were able to break down important aspects of the case, so that the parties were able to re-evaluate their positions, in a way that they had been unable to do before - this was extremely beneficial."
- Litigation solicitor, construction dispute
