

Cyber Risk Consulting services

At Allianz Commercial, we leverage our extensive expertise in cyber insurance and our global network of cyber risk consultants, in collaboration with trusted industry partners, to help businesses identify and address cyber exposures while protecting against evolving digital threats. We go beyond mere compensation, understanding that genuine cyber resilience demands proactive measures and swift response.

We offer a comprehensive suite of services including assessments, workshops and site surveys. These are designed to enhance transparency and build resilience throughout the cyber value chain, helping protect clients from financial losses due to cyber incidents.

Complimentary cyber loss control services valued at up to \$25,000 delivered by Allianz expert cyber risk consultants. *

- Holistic cyber risk insight
- Security maturity assessment
- Cyber threat modelling
- Industry benchmarking with claims insights
- Identification and prioritisation of major security gaps
- Threat scenarios and potential exposure reduction through mitigation measures
- Access on-demand, pre-recorded cybersecurity training sessions on key topics

**available for up to three hours.*

Additional cyber services are available to be procured through our trusted third parties, including cyber business interruption exposure quantification, ransomware readiness, cyber war gaming exercises, and breach simulation services.

Bitsight Enabled Client Access (ECA)

Find. Prioritize. And mitigate your most vulnerable infrastructure

Are You At Risk for a Cyber Incident?

Benefit from a 60-day complimentary trial of Bitsight, giving you with the same advanced cyber risk insights and tools used by Allianz. Gain a comprehensive understanding of your organization's vulnerability exposure in order to prioritize remediation efforts.

Bitsight Security Performance Management (SPM)

By accepting the ECA invitation you'll get to experience free access to Bitsight Security Performance Management (SPM), opening the door to solve key challenges in cyber risk governance and exposure.

You'll also gain:

- Full visibility of your attack surface in order to prioritize vulnerable areas
- Easy-to-understand Bitsight rating and risk vector grades with full findings data and actionable insights
- Evidence-based analytics and metrics correlated to breach and ransomware risk.

Continuous Support & Engagement

As an Enabled Client Access recipient, you have access to a full array of customer support options to learn more about your Bitsight rating, address asset attribution questions, and help you establish a program a cyber resilience to protect your business and improve cyber risk posture.

At the end of the 60-day free access period ends, you will retain the Bitsight Core product, which is a limited-view experience. This will continue to have access to the Bitsight platform, including the Bitsight headline rating, risk vector insights, and limited findings insights for ongoing cyber risk management.

Bitsight is a cyber risk management leader transforming how companies manage exposure, performance, and risk for themselves and their third parties.

Companies rely on Bitsight to prioritize their cybersecurity investments, build greater trust within their ecosystem, and reduce their chances of financial loss. Built on over a decade of technological innovation, its integrated solutions deliver value across enterprise security performance, digital supply chains, cyber insurance, and data analysis.

Welcome to the eRiskHub® Portal

When a breach event occurs, time is of the essence. Having a breach response plan in place with access to the third-party resources you need can help you efficiently and cost-effectively respond to and recover from the breach.

As a Allianz policyholder, you will receive complimentary access to the eRiskHub portal, powered by NetDiligence®. eRiskHub provides tools and resources to help you understand your exposures, establish a response plan and minimize the effects of a breach on your organization.

Key Features

Incident Roadmap

Suggested steps to take following a network or data breach incident, free consultation with a Breach Coach® and access to a breach response team

News Center

Cyber news feeds, threat intelligence, and security, legal, and compliance blogs

Risk Manager Tools

Cost calculators, research tools for causes of incidents and cyber claims payouts, and sample policies, including one for remote working Welcome to the eRiskHub® Portal

Cybersecurity Awareness

Resources for ongoing employee education, including general security awareness, anti-phishing, and IP/trade secrets

Ransomware Resources

A guide on must-have ransomware safeguards, ransomware stress test, mock ransomware exercise, and a short ransomware self-assessment survey that can help you reduce your exposure to ransomware and other exploit threats
