

Resilience in Motion Starts with **SMART**

What is SMART?

SMART (Self-Managed Assessment and Reporting Tool) is a strategic solution that delivers swift, unbiased risk insights across internal and external supplier locations worldwide – through a simple, objective questionnaire.

By turning insights into action, SMART transforms your risk management approach —building resilience through faster response and smarter decision-making across your supply chain.

What are the key benefits?

- Holistic risk visibility across entire portfolio
- Real-time access for location managers globally
- Streamlined data collection across global sites
- In-depth evaluation of owned and supplier locations
- Insights for targeted risk mitigation and investment decisions

What are the key features?

- Quick and easy setup
- Global accessibility
- Powered by ARC's proprietary scoring methodology
- Objective assessment
- Location specific improvement measures
- Management Reporting dashboards
- Dedicated ARC Engineering support
