

ShockGUARD MacBook

Extreme Protection From The Inside Out

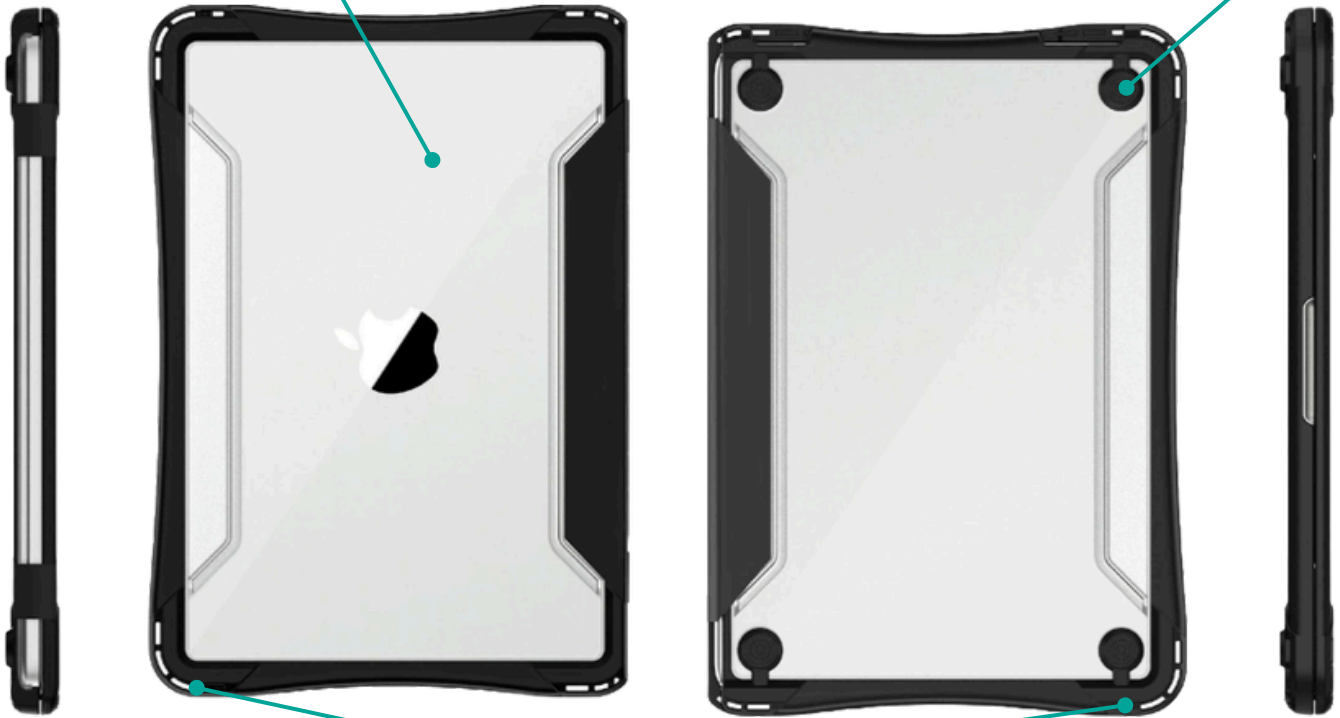

H I G H E R
G R O U N D

Easy Port Access

Transparent Outer Shell

Non-Slip Feet

TPU Corners

Features & Benefits

- Bottom vents ensure the device stays cool
- Transparent shell for ID and asset tag viewing
- Large openings for all charge and accessory ports

Usage

- Slim design easily fits into backpacks
- Raised ridges make it easy to grab.
- Easily fits in carts with access to charging ports
- Hassle-free installation

Construction

- Tough polycarbonate outer shell
- Shock-absorbing TPU (Thermoplastic Polyurethane) lined interior and corner protection
- Extended shock-absorbing edges provide enhanced screen protection
- Single-piece design means no lost parts
- Smooth, single-layer material TPU hinge prevents fraying

ShockGUARD MacBook Overview

With ShockGUARD, Higher Ground has corrected a fundamental flaw with most snap-on shells. They're inside out. Similar to a helmet, the inner shock-absorbing material cushions your device, while the hard, outer shell takes the knocks and drops.

Fit Guide

- MacBook Neo
- MacBook Pro 16
- MacBook Air 13 M4
