

Device Protection Program

Simple, Reliable Coverage.

Protection Designed for Real-World Use

AssetGUARD+ combines the freedom to **choose any Higher Ground case**, sewn or molded, with complete device coverage that helps reduce downtime and extend life. When the inevitable accident does happen, repairs and replacements are covered through a simple, hassle-free claims process.

How it works

- 1 A covered device experiences an issue
- 2 Submit a claim via portal or contact us
- 3 Repair or replacement is completed through an authorized repair center

The AssetGUARD+ Assurance

If repair costs exceed the covered value of the device, or repair is not reasonable, the device is replaced based on its original covered value. Replacement devices are then eligible for new coverage under *AssetGUARD*.

What It Covers

Covered Repairs

Protection includes manufacturer defects and accidental damage.

Lost & Theft Coverage

\$75 deductible with police report

Full Replacement Protection

If repair isn't practical

Free Shipping

Shipping is included for covered repairs when applicable.

Accessory Protection

Included accessories are covered

HOW IT COMPARES

AssetGUARD+ vs. Standard

Compared to standard manufacturer warranties and device protection plans, AssetGUARD offers similar protection; with fewer fees, extended coverage, & flexibility.

Pricing Overview

AssetGUARD+ pricing based on:

- Device value at purchase
- Length of coverage (2, 3, or 4 years)

Compared to AppleCare+, AssetGUARD+ generally:

- Has lower upfront cost
- Reduces risk of damage (case)
- Eliminates repair fees
- Offers coverage beyond standard time limits for new and older devices

Pricing and coverage options are available upon request.
