Drummond CFS FirstChoice & Accelerate 100 Managed Accounts

Why Drummond: People, Process & Partnership

Welcome to Drummond CFS FirstChoice & Accelerate 100 Managed Accounts

Drummond Capital Partners are pleased to partner with Colonial First State to offer an innovative managed account solution, tailored specifically for FirstChoice clients.

Utilising the institutional experience of Drummond's investment team, systems and proprietary research, clients can access a diversified range of actively managed multi-asset portfolios incorporating our asset allocation expertise.

Leveraging the FirstChoice mandate structure, these portfolios contain an allocation to the Drummond Dynamic Plus Fund. This structure delivers our proven tactical asset allocation process, providing real time risk management and a smoother investment journey.

OUR DIFFERENCE

Institutional investment management processes

Purpose built for FirstChoice

Best in class reporting and communication

Real time TAA approach

Cost aware approach blending passive and active funds

Drummond CFS Managed Accounts

Drummond Capital Partners are a multi-asset investment manager providing institutional grade portfolio management solutions to clients via the transparent and efficient managed account structure. The firm was established in 2017 and is owned and managed by the investment team that has 100+ years of combined investment experience.

At Drummond, we believe in the power of asset allocation as academic evidence shows this is the primary driver of long-term returns. We invest considerable time and resources into both strategic and tactical asset allocation which in conjunction with our proprietary manager research deliver high quality, risk aware portfolios.

BENEFITS OF PARTNERING WITH DRUMMOND

A dedicated investment team delivering a robust and repeatable investment process

Disciplined and equitable execution of ideas with real time updates

Strong risk management and more consistent portfolio outcomes over time

Well established client reporting and market insights content enhancing client engagement

Managing For a More Stable Journey

Our CFS FirstChoice portfolios are tailored specifically for the needs of FirstChoice clients. FirstChoice is one of the largest pension payers in the country and we know that volatility reduces returns for clients in pension phase. We therefore believe it's important to minimise large drawdowns to increase the longevity of one's retirement savings. Our proven tactical asset allocation process has delivered 2% lower volatility compared to its static benchmark since inception (DS70 vs SAA) almost 5 years ago. We believe this is attractive for FirstChoice investors seeking a smoother investment journey to reduce the impact of sequencing and longevity risk. In addition to managing sequencing risk, this approach helps address behavioural risks, such as loss aversion, which is particularly amplified in retirement.

FirstChoice has a restricted investment menu compared to other wrap platforms, therefore, to allow us to drive a better outcome for investors, Drummond FirstChoice portfolios include an allocation to the Drummond Dynamic Plus Fund. The Drummond Dynamic Plus Fund was launched in January 2021 and is an extension of our flagship Drummond Dynamic Portfolio launched at the firm's inception. The Fund is a dynamically managed, global multi-asset strategy and has been rated by SQM 4 Stars, Superior. Suitable for inclusion on most APLs: High Investment Grade.

Allocating to a real return fund is an innovative way to provide diversified sources of returns across liquid markets such as equities, bonds, and credit as well as reducing drawdown risk through Drummond's proven tactical asset allocation process. The inclusion of an allocation to the Dynamic Plus Fund achieves the following:

Deliver a Smoother Investment Journey

Incorporating a real return fund in the managed account is beneficial to advisors and their clients seeking the ability to manage market risk, by reducing overall portfolio volatility and managing drawdown risk.

In addition to the proven behavioural benefits of this strategy, we believe that financial outcomes of clients are better served by focusing on capital preservation.

Efficiently Apply Tactical Views

By including a real return strategy within the managed account, portfolio changes that represent current market views can be made in real time, across all markets, in a more cost and tax effective manner.

This also alleviates the time required to implement trades and identify the best possible funds (if at all available) on the platform to express that view.

Access a Wider Range of Asset Classes

By incorporating a real return fund within the Drummond FirstChoice managed account, the portfolio becomes more diversified across asset classes, including less traditional ones that may not be accessible via the existing investment options on FirstChoice.

In our view, portfolio diversity helps to drive better investment outcomes.

Drummond Team & Service

Drummond is independently owned and operated by co-founders Nick Reddaway and Tom Schubert, the combined team and investment committee have over 160 years investment management experience spanning equities, foreign exchange, fixed income, and alternatives both in Australia and overseas.

- Portfolio fact sheets
- Monthly reports for each portfolio
- Real time portfolio updates
- Monthly video updates from our investment team
- Videos on our business and investment process
- Excel file with detailed portfolio holdings

Investment Process & Philosophy

The Drummond Investment Philosophy is centred around the belief that markets are not always efficient in the short term. By minimising potential for losses in weak periods, we believe the compounded growth will be superior over time, creating a better investment journey.

We believe in active management both at a portfolio level (tactical asset allocation) and within the asset classes, seeking to identify which sub-sectors have persistent opportunities for outperformance (alpha) and seeking to find those managers best positioned to generate alpha over time.

Our process has 3 distinct processes which is combined with our extensive portfolio management experience and proprietary systems to deliver robust investment portfolios.

Portfolio Overview

	Conservative	Moderate	Balanced	Growth	High Growth

Drummond Conservative

INVESTORS THIS PORTFOLIO IS DESIGNED FOR

This portfolio has a neutral exposure to growth assets of 30% and is suitable for investors with a conservative tolerance to risk, seeking less volatile returns and regular income. The portfolio is highly diversified across equities, real assets, government bonds, corporate debt, and alternatives.

OBJECTIVE

The objective of this portfolio is to exceed, over the investment time horizon, the return of the FE AMI Mixed Asset Moderate Peer Group. Through tactical asset allocation, we also seek to achieve this with equal to or lower than peer volatility.

BENCHMARK & INVESTMENT HORIZON

The benchmark for this portfolio is the FE AMI Mixed Asset Moderate Peer Group. Investors should consider the investment horizon to be at least 3 years.

INVESTMENT STRATEGY

The portfolio combines the four pillars of Drummond's investment process - strategic asset allocation, tactical asset allocation, investment manager research and portfolio construction. In general, the portfolio will have a long-term average exposure of around 70% to defensive assets (including fixed interest and cash) and 30% to growth assets (including shares, property, infrastructure, and alternatives). However, these allocations will be actively managed within the allowable ranges depending on market conditions.

ASSET ALLOCATION RANGE

Asset Class	Minimum %	Neutral %	Maximum %
Australian Equities	5	8	20
International Equities	5	11	20
Real Estate & Infrastructure	0	1	15
Drummond Dynamic Allocation	0	10	10
Cash	20	20	50
Government Bonds		25	
Corporate Debt		25	
Defense	80	70	60
Growth	20	30	40

Drummond Moderate

INVESTORS THIS PORTFOLIO IS DESIGNED FOR

This portfolio has a neutral exposure to growth assets of 50% and is suitable for investors with a balanced tolerance to risk, seeking less volatile returns and regular income. The portfolio is highly diversified across equities, real assets, government bonds, corporate debt, and alternatives.

OBJECTIVE

The objective of this portfolio is to exceed, over the investment time horizon, the return of the FE AMI Mixed Asset Balanced Peer Group. Through tactical asset allocation, we also seek to achieve this with equal to or lower than peer volatility.

BENCHMARK & INVESTMENT HORIZON

The benchmark for this portfolio is the FE AMI Mixed Asset Balanced Peer Group. Investors should consider the investment horizon to be at least 5 years.

INVESTMENT STRATEGY

The portfolio combines the four pillars of Drummond's investment process - strategic asset allocation, tactical asset allocation, investment manager research and portfolio construction. In general, the portfolio will have a long-term average exposure of around 50% to defensive assets (including fixed interest and cash) and 50% to growth assets (including shares, property, infrastructure, and alternatives). However, these allocations will be actively managed within the allowable ranges depending on market conditions.

ASSET ALLOCATION RANGE

Asset Class	Minimum %	Neutral %	Maximum %
Australian Equities	10	16	25
International Equities	10	20	25
Real Estate & Infrastructure	0	4	20
Drummond Dynamic Allocation	0	10	10
Cash	10	10	30
