

Chrome Extension Setup Guide

Get up and running in minutes.

Install Link:

<https://link.wavv.com/chrome>

This extension requires Google Chrome.

1 Get the Install Link

The WAVV Chrome Extension is installed via a direct link. Copy or click the link below to open the Chrome Web Store listing.

The extension is not publicly listed – use this link only.

<https://link.wavv.com/chrome>

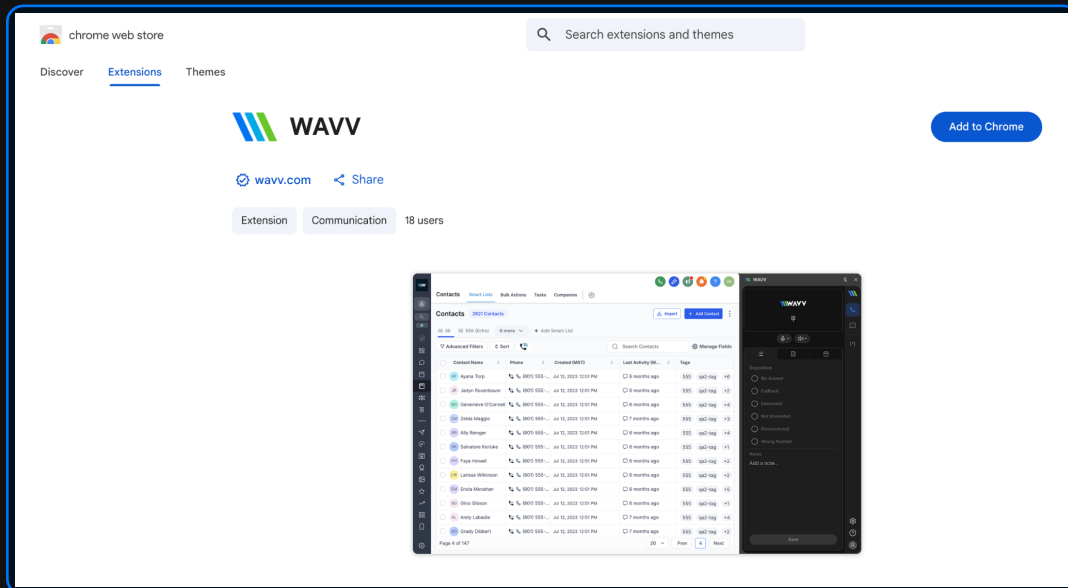

2 Open Google Chrome

WAVV requires Google Chrome. Open Chrome and paste the install link into a new tab.

Other browsers (Edge, Firefox, Safari) are not supported.

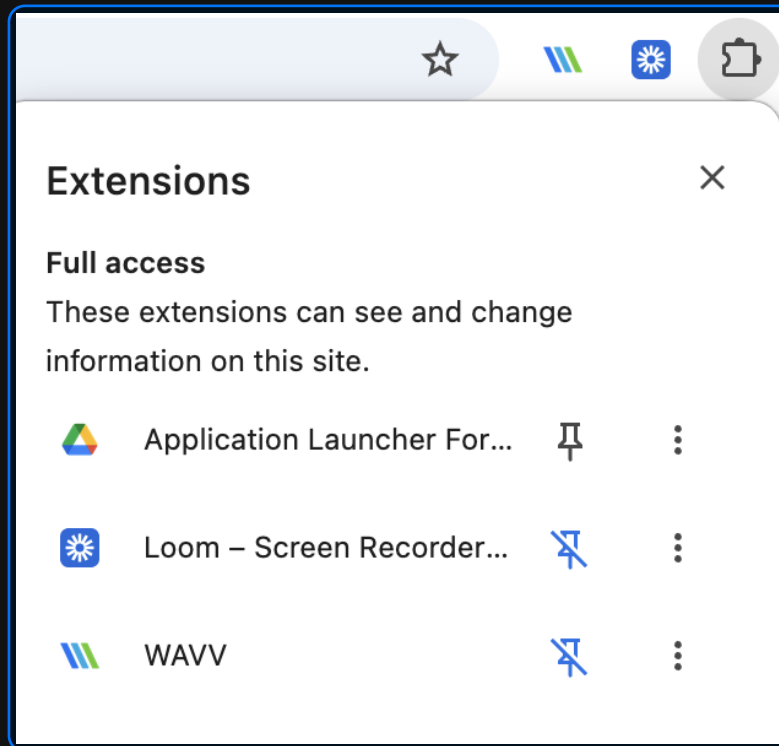

3 Install the Extension

Click the blue "Add to Chrome" button on the Chrome Web Store page. Confirm the installation when prompted.

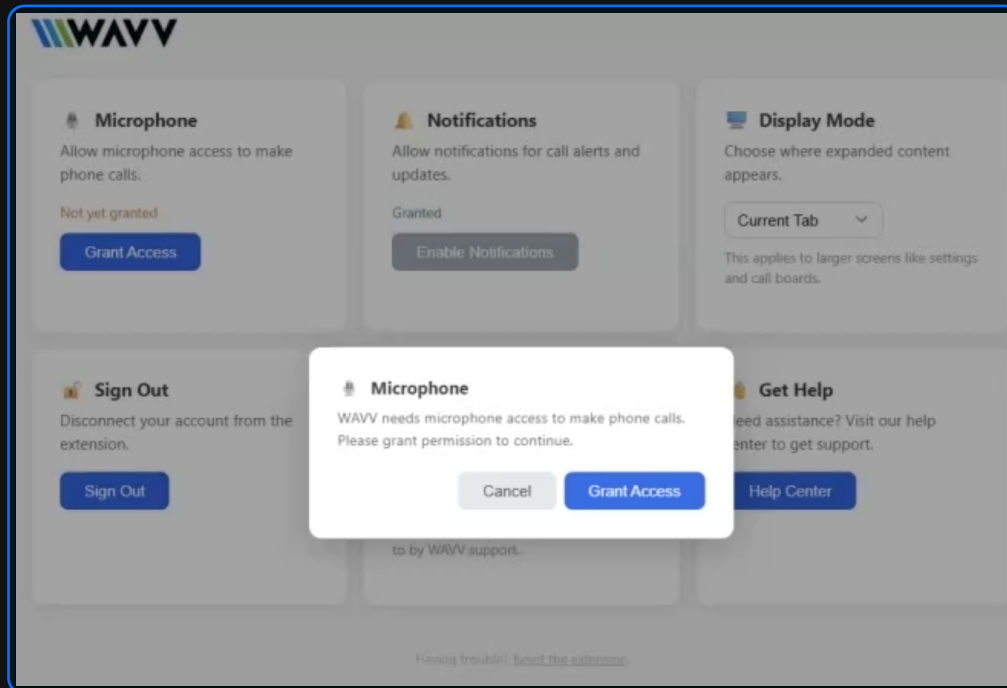

4 Pin the Extension

Click the puzzle piece icon (Extensions) in your Chrome toolbar. Find WAVV in the list and click the pin icon so it stays visible.

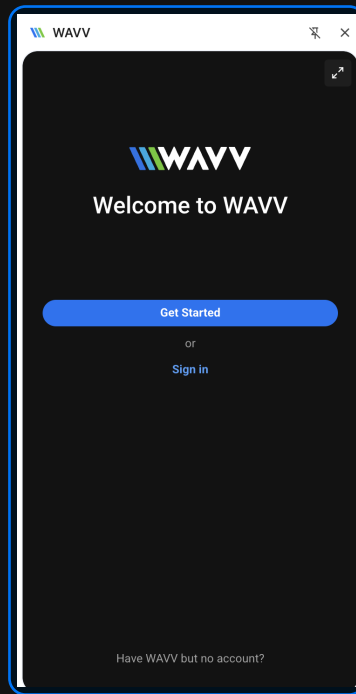

5 Grant Microphone Access

When prompted, click "Grant Access" to allow WAVV to use your microphone for calls. Also enable notifications for call alerts.

6 Sign In to WAVV

Click the WAVV icon to open the side panel. Tap "Sign In" and enter the same email you use for your WAVV account. You'll receive a 6-digit code by email — enter it to complete login.

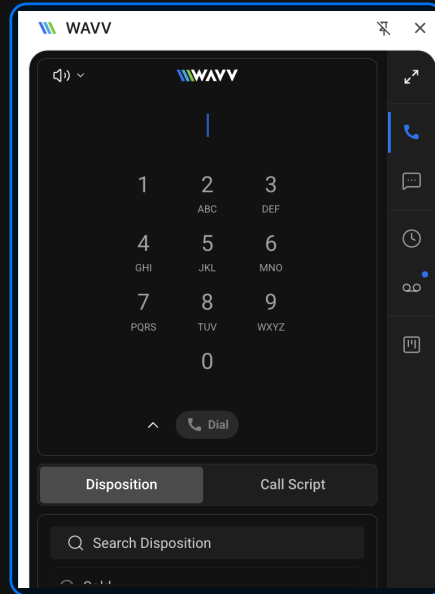

7 Open Your CRM in the Same Browser

WAVV must run in the same Chrome window as your CRM. Navigate to your CRM in another tab – the WAVV side panel will remain active.

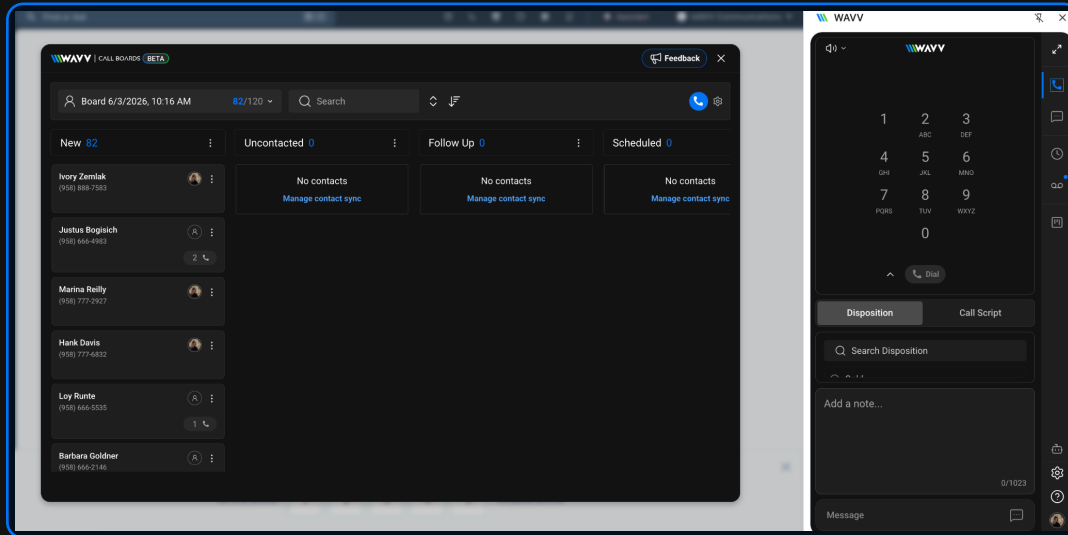

8 Test a Call

Use the dial pad in the WAVV side panel to dial a test number. Confirm your audio works and local presence rotation is active.

9 (Optional) Configure Display Mode

Click the puzzle piece right-click WAVV Options. Under Display Mode, choose where Callboards and WAVV Manager open: dedicated tab, pop-up, or current tab.

You're Live!

Your WAVV Chrome Extension is installed and ready to go.
Open your CRM, start a Callboard, and make your first call.
