

Creating Definitive Truth

Definitive Truth is Created by Decentralized Computation

Definitive: Not able to be changed or improved

True: Being in accordance with the actual state or conditions; conforming to reality or fact

Blockchains Create an Unbreakable and Cryptographically secured Chain of Definitive Truth about “On-chain Data”

Bitcoin is Definitive Truth about Bitcoin Ownership

GLOBAL BITCOIN NODES DISTRIBUTION

Chainlink is Definitive Truth about Real World Data/Events

Real World's Data Sources

Decentralized Oracle Network

Decentralized Computation

Decentralized Oracles: A form of decentralized computation that validates data about real world events, creating definitive truth about those events and making it reliable enough for use by a smart contract.

The “Oracle Problem” for Smart Contracts

Smart Contracts are unable to connect with external systems, data feeds, APIs, existing payment systems or any other off-chain resources on their own.

SmartContract Adoption Through Superior Guarantees

Counterparty Risk:

Counterparty risk is the likelihood or probability that one of those involved in a transaction might default on its contractual obligation.

Brand Based Contractual Guarantees

Trust my logo!

- **Counterparty risk is high and opaque**
- Interest yields are low and going lower
- Security is an after thought

Math Based Contractual Guarantees

$$y^2 = x^3 + 7$$

- **Counterparty risk is low and transparent**
- Interest yields are consistently high
- Security is built-in

Forward Looking Web 2.0 Firms are Already Converting

The screenshot shows the Coindesk website with a dark blue header. The navigation bar includes links for NEWS, LEARN, VIDEOS, RESEARCH, and EVENTS (highlighted in yellow). A search icon is on the right. The main article is titled "MicroStrategy Buys \$250M in Bitcoin, Calling the Crypto 'Superior to Cash'" and is dated August 11, 2020. A large image of a Bitcoin on a stand is featured. Social media sharing icons for Twitter, Facebook, and LinkedIn are visible at the bottom left of the article header.
