

Hotel booking iOS app development

Designer: Ana Sokolović

Mobile app Concept

Hotelier's iOS mobile travel app allows thousands of users to book hotels, inns, and vacation rentals at the best prices in 56 countries. **Find accommodation for your vacation, weekend getaway, or business trip anywhere in the world!**

- More than two million accommodation options
- Multilingual (50 languages)
- Search by city, landmark, or hotel name
- Filters by price, rating, Wi-Fi speed, and other important indicators
- for you
- Daily deals for any budget
- Early booking discount
- Free cancellation for most options
- No commission for booking or using a credit card
- More than 300 million real guest reviews
- Comfortable booking management system
- Round-the-clock customer support.

Send messages to the owner of the property, change check-in times, and openly share your experience with other users.

Templates

Together with the design guide, the design layouts of the project are handed over to the developers
