

STEM EDUCATION

SUNDT

CORPORATE IMPACT

CASE STUDY

CONSTRUCTING THE FUTURE

HOW SUNDT CONSTRUCTION PARTNERED WITH STIIIX TO BRING CONSTRUCTION EDUCATION TO >6,000 PHOENIX- AREA STUDENTS.

OUTCOMES

Through the budget below, STIIIX & the Sundt team were able to accomplish the following:

6,750

Local Youth Reached

Through 3 Community Partners:

- Mesa Public Schools
- Boys & Girls Club of the Valley
- YMCA - Valley of the Sun

150

Classroom Kits / Bins Donated

\$40k

Community Investment

SCOPE

Sundt "walks the walk" when it comes to their commitment to employee engagement & community service.

As part of their annual leadership summit, >200 managers and executives combine forces to help out a local cause.

In 2025, that looked like partnering with & tasking STIIIX to:

- Identify local youth-serving beneficiaries / partners
- Develop a kit relevant to Sundt's industry & brand the material according to company preferences
- Procure & prepare materials
- Deliver a speech to attendees describing the initiative to cultivate personal ownership in the project
- Execute a 30-minute, *assembly-line* style session where over 150 classroom STEM Kits were sorted, QC checked, & picked up by partner orgs.

CURIOUS WHAT THIS COULD LOOK LIKE FOR YOUR BUSINESS?

QUOTES

"Working with STIIX was incredibly easy & impactful.
They made it a breeze to plan a volunteer event for 200+ of our company's top leaders and **provided everything we needed** to make it a successful off-site service event. Set up, instructions, the event, clean up, and delivery to nonprofits all happened seamlessly within a few hours, and everyone had a great time. We are grateful for the opportunity to work together to **impact the next generation of skilled builders in our local schools by showing them that construction is a rewarding career option for anyone.** Thanks, STIIX, for helping us create such a fun activity for us to share with our community!"

"Watching students build the STIIX hydraulic kits thanks to the generosity of Sundt Construction & the coordination by

STIIX has been powerful. These kits spark curiosity, encourage teamwork, and create authentic opportunities for students to apply engineering practices in a hands-on way. **As a district deeply focused on career-connected opportunities here in Mesa, working with community partners on initiatives like this is crucial for us;** and we were so

thankful to be a part of this one. The prompt and effective communication between all the parties made this project seamless, allowing us to quickly deliver this **high-impact, real-world learning experience to the students.**"

01

Event Scale

Sundt had >200 participants, but STIIX offers activations for teams of any size!

Note: Do you see much sitting around?
Look at all those heads down!

02

Engagement

The beneficiaries were not the only ones with a smile on their face!

EXPANDED PARTNERSHIP

Upon conclusion of the event, Sundt has since expanded their partnership with STIIX to bring STEM kits / education to other community initiatives like employee visits to local schools!

03

Final, Branded Product(s)

Take a look at how Sundt's white-labeled version of our Hydraulic Lift Project classroom bin turned out!
