Team Joseph
Defeating Duchenne

THANK YOU FROM OUR FOUNDER & JOSEPH'S MOM

When Joseph was diagnosed with Duchenne, the doctors presented us with many terrifying statistics. Over time, I realized the statistics were a history lesson, a look back at what has already happened. It was then that I decided we would write the future of this disease. We would do everything we could to change history, to find a life-saving cure for Joseph's generation.

I knew I couldn't do it alone.

It is only through your generous help that we are fulfilling our mission of funding aggressive, promising research and providing financial assistance—in the shape of ramps and wheelchairs, home modifications, accessible van down payments, and travel to specialized clinics—to families fighting Duchenne.

Your support gives me hope that Joseph has a future and will accomplish his dreams.

When you choose to join our team, you become a part of something bigger than yourself—you are leaving a legacy not only for Joseph's generation, but for generations not yet born.

On behalf of my family and every family affected by Duchenne, thank you for joining the fight. We are so very grateful for you!

WHAT IS TEAM JOSEPH?

Team Joseph is on a mission to end Duchenne muscular dystrophy—the most common degenerative genetic muscle disease in boys. We aggressively fund cutting-edge research with the goal of finding a treatment or cure for a disease that weakens boys' muscles, attacking their heart and lungs and typically taking the lives of young men in their twenties.

Our mission also includes working with families to provide financial assistance and direct support related to the overwhelming costs of caring for a child with Duchenne. We help families with everything from medical equipment to home modifications, down payment grants for accessible vehicles, educational opportunities and travel to specialized Duchenne clinics.

Our goal is for Joseph's generation to be the first to survive Duchenne muscular dystrophy. You can help us make it happen.

WHAT IS DUCHENNE?

1 IN 4,500

boys are born with Duchenne, typically diagnosed between the ages of 2 and 5.

DUCHENNE STEALS

a boy's ability to walk between the ages of 10 and 12, confining them to a wheelchair.

DUCHENNE ATTACKS

upper body strength, until boys lose the ability to lift a fork, dress themselves, and hug their mom.

YOUR DOLLARS AT WORK

CUTTING-EDGE RESEARCH

We have provided funding for three projects that are in clinical trial, including a gene therapy trial with positive initial results.

NEARLY \$2 MILLION HELPED OVER 1,500 FAMILIES

Through the generosity of individuals, foundations, and corporate supporters, we have given nearly \$2 million in support to over 1,500 families in need all over the country.

Your support advances the speed of research, moving us exponentially closer to saving the lives of children with Duchenne. It also provides immediate and critical assistance to families struggling with Duchenne.

\$500

Funds family travel to a specialized Duchenne clinic.

\$10,000

Provides a down payment for an accessible van.

"I just want to say thank you from the bottom of my heart and thank you to all the donors who have helped get this lifechanging thing for me. I'm really happy I get to go wherever I want in the safety of this very sturdy wheelchair. Thank you from the bottom of my heart for helping us."

- Joel, after receiving his wheelchair-accessible van funded by Team Joseph supporters.
