Bible Study Questions on the Book of 1 Thessalonians

Introduction:

This workbook was designed for Bible class study, family study, or personal study. The class book is suitable for teens and up. The questions contain minimal human commentary, but instead urge students to study to understand Scripture.

Enough questions are included for teachers to assign as many questions as they want for each study session. Studies may proceed at whatever speed and depth will best accomplish the needs of the students.

Questions labeled “think” are intended to encourage students to apply what they have learned. When questions refer to a map, students should consult maps in a Bible dictionary or similar reference work or in the back of their Bibles. (Note: My abbreviation “**b/c/v**” means “book, chapter, and verse.”)

For class instruction, I urge teachers to assign the questions as homework so students come to class prepared. Then let class time consist of **discussion** that focuses on the Scriptures themselves. Let the teacher use other Scriptures, questions, applications, and comments to promote productive discussion, not just reading the questions to see whether they were answered “correctly.” Please, do **not** let the class period consist primarily of the following: “Joe, will you answer number 1?” “Sue, what about number 2?” Etc.

I also urge students to emphasize the **Bible** teaching. Please, do not become bogged down over “What did the author mean by question #5?” My meaning is relatively unimportant. The issue is what the Bible says. Concentrate on the meaning and applications of Scripture. If a question helps promote Bible understanding, stay with it. If it becomes unproductive, move on.

The questions are not intended just to help students understand the Scriptures. They are also designed to help students learn good principles of Bible study. Good Bible study requires defining the meaning of keywords, studying parallel passages, explaining the meaning of the text clearly, making applications, and defending the truth as well as exposing religious error. I have included questions to encourage students to practice all these study principles.

Finally, I encourage plain applications of the principles studied. God's word is written so souls may please God and have eternal life. Please study it with the respect and devotion it deserves!

For whatever good this material achieves, to God be the glory.
