

**All Babies
Are Equal**

Program Report by State and LGA

Q4 2022 & Q1 2023

Table of Contents

The information included in this report is based on the program monitoring and the data collected from clinics where the All Babies program operates, in accordance with operating agreements and data protection policies. We are pleased to share this data with the caveat that this data may be incomplete as it only reflects data collected for program purposes, and does not represent data from all clinics in a given area or population.

Data Privacy and Information Security are at the heart of everything we do. NI-ABAE processes a wide range of information in order to achieve its mission and fulfill its purpose. We take pride in setting high standards in information security and with the promotion of individual privacy rights, NI-ABAE aims to fulfill its responsibility as a Data Controller.

NI-ABAE has been certified by NDPB (Nigerian Data Privacy Bureau) for the 3rd consecutive year, with a distinct commendation for our ongoing ability to protect areas of personal information and to seek improvements in our already highly secure organization.

Program Overview

1.1.2021 - 3.31.2023

New Incentives - All Babies Are Equal (NI-ABAE) provides cash incentives to caregivers in northern Nigeria to increase childhood vaccination rates. When caregivers bring their infant in for routine immunizations, we provide a small cash incentive and information about the importance of vaccinations.

The All Babies program operates in government clinics in partnership with state and local governments and immunization partners.

Bauchi Uptake

Q4 2022 & Q1 2023

This chart and map show the estimated uptake among under 1 infants within a 5km radius of program clinics. Infant population is estimated based on data from the Humanitarian Data Exchange (HDX) and other sources, and assumes a birth rate of 4%. Estimated Enrollment can exceed 100% in some cases due to catch-up infants (infants who are missing or have not received doses of vaccines for which they are eligible, per the immunization schedule) and other factors.

State	LGA	Estimated Uptake	Enrollments	Population Estimates

Bauchi Retention Rate

Q4 2022 & Q1 2023

This map shows the Penta 3 retention rate among infants enrolled in the All Babies program. Out of the number of infants due to receive Penta 3 and other vaccines during the 14-week routine immunization visit, this is the percentage of infants who received at least the third dose of Penta 3.

In the chart, you can see retention rates for infants enrolled in the program for Penta 1 (6-week RI visit), Penta 2 (10-week RI visit), Penta 3 (14-week RI visit), Measles 1 (9-month RI visit), Measles 2 (15-month RI visit). Infants may return a few weeks late after due dates which will be reflected in subsequent reports.

The numbers in parenthesis indicate the number of enrolled infants who received the vaccine.

LGA	Population Estimates	Penta 1 Retention (Received)	Penta 2 Retention (Received)	Penta 3 Retention (Received)	Measles 1 Retention (Received)	Measles 2 Retention (Received)

This chart and map show the estimated uptake among under 1 infants within a 5km radius of program clinics.

Infant population is estimated for the clinics where our program operates and is based on data from the Humanitarian Data Exchange (HDX) and other sources, assuming a birth rate of 4%. Estimated Enrollment can exceed 100% in some cases due to catch-up infants (infants who are missing or have not received doses of vaccines for which they are eligible, per the immunization schedule) and other factors.

Enrollment numbers are overlaid and shown by LGA.

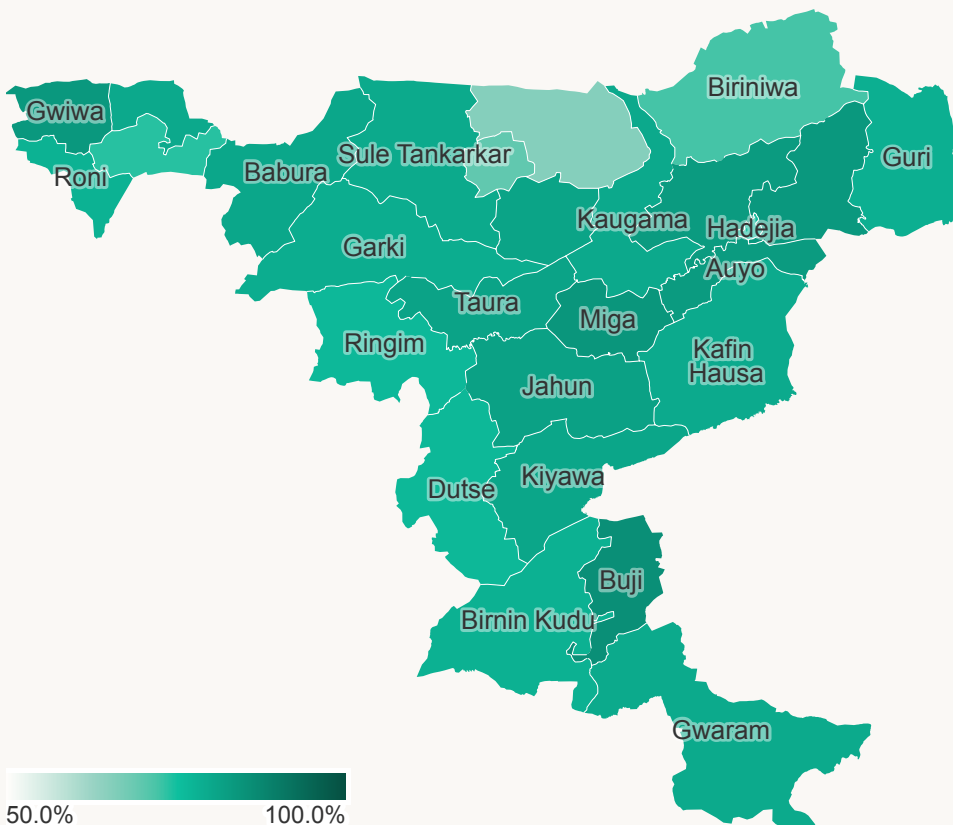

Jigawa Retention Rate

Q4 2022 & Q1 2023

This map shows the Penta 3 retention rate among infants enrolled in the All Babies program. Out of the number of infants due to receive Penta 3 and other vaccines during the 14-week routine immunization visit, this is the percentage of infants who received at least the third dose of Penta 3.

In the chart, you can see retention rates for infants enrolled in the program for Penta 1 (6-week RI visit), Penta 2 (10-week RI visit), Penta 3 (14-week RI visit), Measles 1 (9-month RI visit), Measles 2 (15-month RI visit). Infants may return a few weeks late after due dates which will be reflected in subsequent reports.

The numbers in parenthesis indicate the number of enrolled infants who received the vaccine.

Sokoto Uptake

Q4 2022 & Q1 2023

This chart and map show the estimated uptake among under 1 infants within a 5km radius of program clinics.

Infant population is estimated for the clinics where our program operates and is based on data from the Humanitarian Data Exchange (HDX) and other sources, assuming a birth rate of 4%. Estimated Enrollment can exceed 100% in some cases due to catch-up infants (infants who are missing or have not received doses of vaccines for which they are eligible, per the immunization schedule) and other factors.

Enrollment numbers are overlaid and shown by LGA.

State	LGA	Estimated Uptake	Enrollments	Population Estimates
Sokoto	Binji	33%	871	2,604
Sokoto	Bodinga	22%	1,080	5,022

Sokoto Retention Rate

Q4 2022 & Q1 2023

This map shows the Penta 3 retention rate among infants enrolled in the All Babies program. Out of the number of infants due to receive Penta 3 and other vaccines during the 14-week routine immunization visit, this is the percentage of infants who received at least the third dose of Penta 3.

In the chart, you can see retention rates for infants enrolled in the program for Penta 1 (6-week RI visit), Penta 2 (10-week RI visit), Penta 3 (14-week RI visit), Measles 1 (9-month RI visit), Measles 2 (15-month RI visit). Infants may return a few weeks late after due dates which will be reflected in subsequent reports.

The numbers in parenthesis indicate the number of enrolled infants who received the vaccine.

State	LGA	Population Estimates	Penta 1 Retention (Received)	Penta 2 Retention (Received)	Penta 3 Retention (Received)	Measles 1 Retention (Received)	Measles 2 Retention (Received)
Sokoto	Binji	2,604	76% (293)	75% (601)	72% (395)	77% (177)	59% (27)
