

WHY DO BUSINESSES CHOOSE HOSTED VOIP?

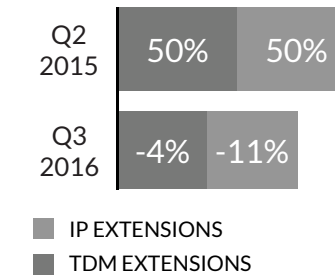

The Internet is quickly becoming a dominant part of all forms of communication, and voice is no exception. Hosted VoIP provides seamless solutions for the growing demand businesses have for Internet communication, combining cost-effective technology with quality voice and data to guarantee companies stay connected.

DECLINING TRADITIONAL TELEPHONY

2016's 3rd quarter will be the 7th in succession on-premise PBX extensions have declined – and that rate is accelerating.^①

TOTAL EXTENSION MARKET BY TECHNOLOGY^②

BT aims to migrate all customers from traditional landlines to VoIP by 2025.^③
This marks the end of business landline telephony.
