## ESSENTIAL

AN INEXPENSIVE SOLUTION

Whether you need to record calls for legal or training purposes, recording calls is an essential service for many companies. Without any need for expensive onsite hardware, Number Manager allows you to record both inbound and outbound calls easily and effectively.

## FLEXIBLE

ADAPT THE SERVICE TO YOU

Our call recording service provides you the flexibility to record calls whenever needed. For security purposes, you can opt for call recording to be always on, preventing manual override. Alternatively, manual options mean you can start and stop call recording whenever necessary, even during the call.

## SECURE

SAFELY STORE FILES ONLINE

This simple and convenient service allows you to store recordings for up to 7 years. You can choose for the recordings to be stored online, emailed to a specified mail box, or alternatively transferred locally to your FTP server.
