

Grammarian: From word classes to sentences to sentence analysis

Everyone: Come up with 10 nouns, 10 verbs, and 10 adjectives that belong to the genre sci-fi and/or fantasy (e.g. spaceship, discover, futuristic). Put them on the board.

In pairs: Create sentences using the word classes on the board. You are allowed to add as many words as you like, as long as every sentence has at least one noun, one verb, and one adjective from the board.

Everyone: The four most logical or creative sentences are put on the board. Analyze the sentences and categorize every word class.
