

Grammarian: Creative writing

Every region on Grammarian represents a grammatical function (nouns in Nounia, verbs in Verbia, adjectives in Adjectivia etc.).

For instance, Verbia is known for its fast pace and very active citizens (because verbs describe actions, states, or occurrences). For the same reason, the attack on Verbia has left the people of Verbia frozen solid.

Can you come up with a new region for Grammarian?

Perhaps the new region represents conjunctions (but, and, or), numerals (one, two, three), punctuation (:, !, .) or word order (do I?/I do). Or maybe something else – It's up to you.

- **Write approximately 200 words in which you describe a region that represents a grammatical function** (choose any grammatical function except nouns, adjectives, pronouns, adverbs, and verbs).
