

Telecom Inventory Management.

1 TRACK INVENTORY IN REAL-TIME ACROSS THE PLATFORM

View real-time inventory levels and track performance across all modules, locations, channels, and stock movements.

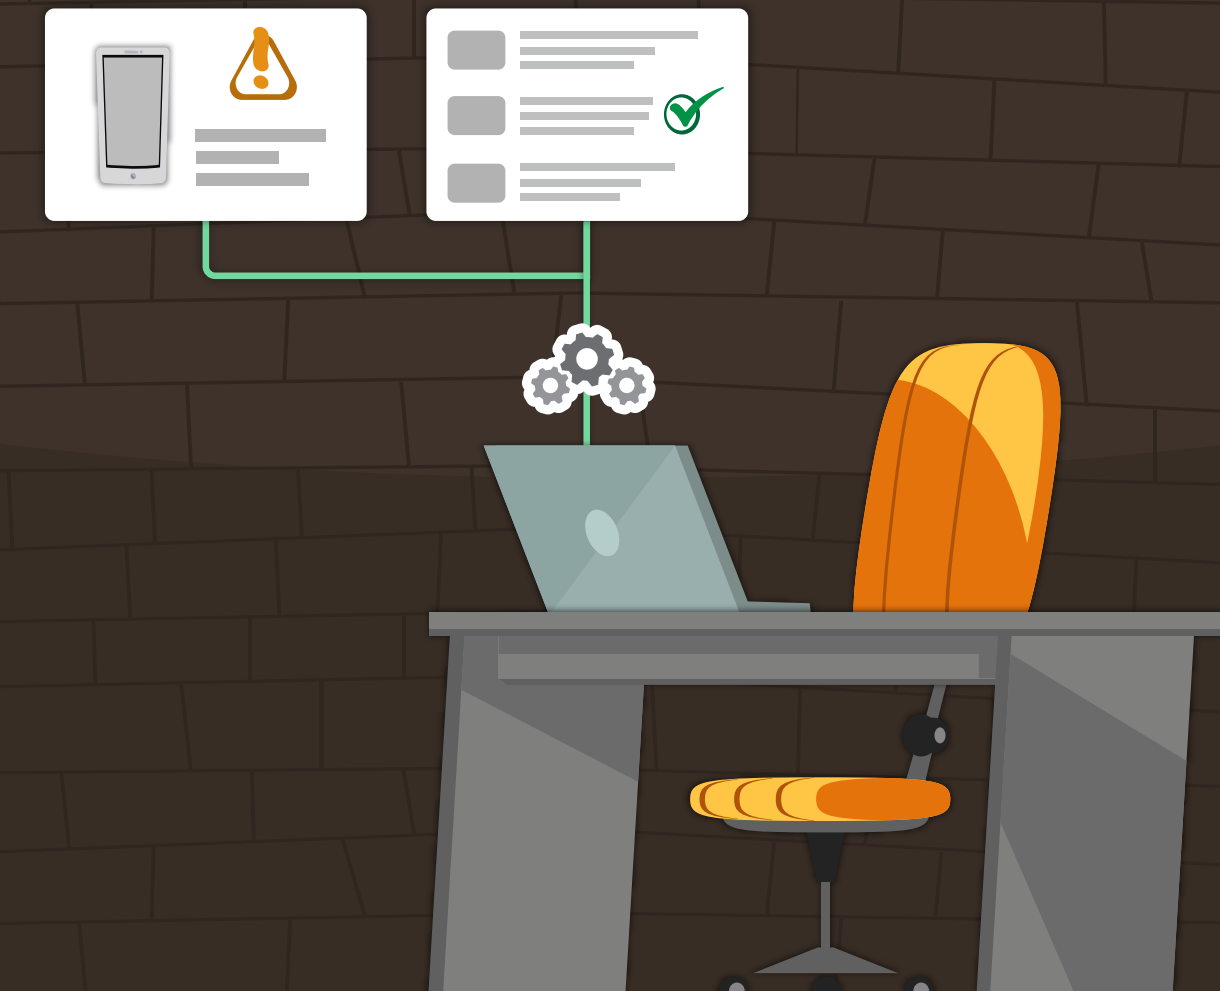

2 ENSURE THE RIGHT PRODUCT IS IN THE RIGHT PLACE, AT THE RIGHT TIME

Customers will never leave empty handed again – our solution optimizes stock levels in both physical and digital channels.

3 GET INVENTORY THAT MANAGES ITSELF

Automatic replenishment tools use sales data to adjust stock levels, reduce markdowns, shrinkage, and “out of stock” situations.

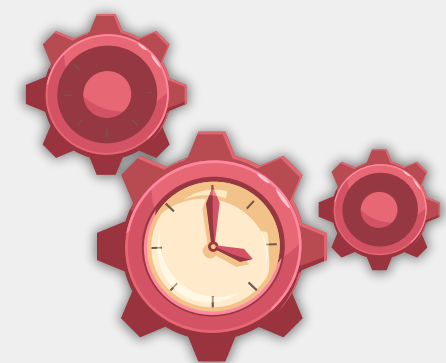

Telecom Inventory Management.

TAKE CONTROL OF YOUR SUPPLY CHAIN

FITS SEAMLESSLY WITHIN ANY EXISTING SUPPLY CHAIN STRUCTURE.

VIEW COMPLETE UNIT HISTORY FOR ACCURATE FINANCIAL REPORTING AND FRAUD PREVENTION.

SERVE MORE CUSTOMERS IN MORE WAYS

Our platform can simultaneously manage inventory across all channels, including traditional retail, third-party/indirect, and self-service.

LEVERAGE OUR INTEGRATED COMMERCE PLATFORM

Our Inventory Management solution is part of an integrated platform that unites all channels and supporting systems into a single front-end. Built using TM Forum Open APIs and microservices, our platform provides a 360 view of customer activities across all channels.

CASE STUDY

ABOUT:

Telkom is a wireline and wireless telecommunications provider in South Africa, operating in more than 38 countries across the African continent.

PAIN POINTS:

- No visibility to serialized inventory.
- Stores were overstocked on the wrong items and out of stock on the right ones.

RESULT:

Released **\$5M+** in working capital back to the balance sheet in year 1.

Aged inventory fell from **270 days** to **<60 days** within 6 months.

Improved stock availability – **90% of the inventory in 90% of the stores, 100% of the time.**
