

ABOUT

Airweb Digital provides aerial data acquisition and processing for infrastructure and assets. We offer turnkey services, ranging from pre/post construction inspections, safety and progression reports, historic building digital preservation, and promotional content for community outreach.

DIFFERENTIATORS

We bring a goal-oriented team consisting of multicultural members and passionate subject matter experts. Our deliverables are built for the mediums of tomorrow and provide a more immersive experience through digital platforms from mobile to VR/AR.

RECENT PERFORMANCE

Southeast US Infrastructure Inspection Project

Capturing aerial data of cell phone towers across the nation, allowing for scalable remote site audits.

Notable Clients

Marcus & Millichap, B+T Engineering, Lavista & Associates, Atelier 7 LLC, Dostyar USA, GCC Wireless
