Statement of purpose

Name of the establishment: THE ONE HEALTH GROUP PLC

1. About the Provider

One Health Group (OHG) is an independent healthcare organisation, commissioned by the NHS, dedicated to the provision of specialist elective Orthopaedic Surgery, Spinal Surgery, General Surgery, Gynaecology and Urology Surgery.

OHG is managed by an experienced healthcare management team, working closely with specialist Consultant Surgeons and other healthcare professionals who play a key role in the delivery of high-quality, patient-centred care and treatment.

OHG operate a 'hub and spoke' model. Our Head Office is located in Sheffield, which is our admin base where our service is managed by our designated Patient Liaison Team, no regulated activity is therefore provided from this site. We have a variety of outreach clinics held in NHS facilities, physiotherapy centres and community settings in a wide geographical area, in order to provide our patients with a greater choice of access close to home. Since 2005, OHG have published clinics on the E-Referral Service (previously Choose and Book) which patients can access via their GP, following an appropriate referral.

OHG work in close partnership with several Independent Sector Hospitals across South and West Yorkshire, Lincolnshire, Derbyshire and Rotherham to provide the following regulated activity:

1. The treatment of disease, disorder or injury
2. Surgical procedures
3. Diagnostic & screening procedures

Each of our Consultant Surgeons holds practicing privileges with OHG, as well as the relevant Hospital they operate from. The vast majority of our Surgeons also work within an NHS Trust Hospital in a substantive Consultant post.

OHG has service level agreements in place, as well as joint governance arrangements, with each partnering hospital to promote collaborative working and the safety of our patients. A combination of joint quality meetings and quality dashboard reviews take place throughout the year and OHG's Clinical Governance Committee ensures CQC compliance is fully adhered to. All patient safety events are reported and managed by OHG, in conjunction with the independent hospitals, in line with the relevant PSIRF (Patient Safety Incident Reporting Framework) and lessons learnt disseminated throughout the organisation.

All diagnostic investigations and imaging required is carried out within local hospitals and mobile services, who report this under their own service arrangements. Our service also partners with PhysioNet who provide post-operative physiotherapy to OHG patients in the community.

OHG offer the following surgery and treatments to patients:

Pain Management Consultations and Diagnostic Injections for:

Frozen Shoulder and shoulder pain
Knee and shoulder joint injections
Diagnostic facet joint, coccyx, nerve root and trigger point injections for spinal conditions

Orthopaedic Surgical Procedures include:

Knee Surgery – including total knee replacements, ACL reconstruction and arthroscopies
Hip Surgery – including total hip replacements, hip arthroscopy
Foot and Ankle Surgery – including Hallux Valgus and arthroscopy
Hand and Wrist Surgery – including carpal tunnel syndrome, trigger finger and trapeziectomy
Shoulder and Elbow Surgery – including shoulder stabilisation, tennis elbow and subacromial decompression and shoulder replacements
Spinal Surgery (both Orthopaedic and Neuro) – microdiscectomy, ACDF, fusion and decompression
Sports Injuries
Private Paediatric Orthopaedic Surgery

General Surgical Procedures include:

Diagnostic gastroscopy
Diagnostic colonoscopy and flexible sigmoidoscopy
Cholecystectomy
Excision of lesion of skin or subcutaneous tissue
Hernia repair

Gynaecology Procedures include:

Diagnostic and operative laparoscopy
Diagnostic and operative hysteroscopy
Vaginal hysterectomy
Abdominal hysterectomy
Rectocele and cystocele repairs

Our website (www.onehealth.co.uk) provides detailed patient information on many of the conditions we treat.

2. Our Aims and Objectives

Our mission is to provide innovative, high-quality, integrated medical and clinical services for patients, optimising outcomes so they can quickly continue healthy lives.

In achieving this, we strive to deliver personalised care to all our patients which is:

Safe - giving our patients confidence in the care they receive by ensuring they are protected against avoidable harm
Caring - delivered with compassion and kindness and ensures dignity and respect is upheld
Responsive - tailored to the needs of each individual patient, equally available to all, taking account of personal circumstances and diversity
Effective - focused on delivering excellent outcomes for all our patients and promoting a good quality of life
Well-led - delivering person-centred care in a fair and open culture which supports learning and innovation, driven by an experienced Board with a strong focus on leadership and governance
