

DTO MT04 EP3

Multipurpose Grease EP3

No. 9010

DEUTSCHÖL DTO MT04 EP3 is made on the basis of high-quality base oils using lithium soaps (Li-12 hydrosystearate) as a thickener. This temperature-resistant rolling and plain bearing grease has highly effective additives to improve corrosion protection, ageing resistance, wear protection (EP additives) and adhesion. The solid consistency ensures very good sealing and pressure absorption of the lubrication point.

APPLICATION

DEUTSCHÖL DTO MT04 EP3 is suitable for the lubrication of rolling and plain bearings under high and intermittent pressure loads. Areas of application include machine tools in industry, commercial vehicles, agricultural machinery and construction machinery.

Performance:

KP3K-30, NLGI 3
ISO L-XCCEB3

Typical Values:

Properties	Testing according	Data	Unit
Working temperature	DIN 51825	-30 up to +130	°C
Short time	DIN ISO 2176	+140	°C
Dropping Point	DIN ISO 2137	212	
Copper corrosion (24h/100°C)	DIN ISO 2160	1	
Base Oil Viscosity	DIN 51562	130	mm ² /s
Colour		Brown	
Brief description	DIN 51502	KP3K-30
