Get more effective survey responses

Helping your people leave feedback full of context and clarity

We're elevating the quality of the insights you gain through Teamgage with our smart AI prompts. By offering real-time guidance to your people right as they make their submission, the result is feedback that's more constructive, clear and actionable!

The screenshot displays the Teamgage survey interface for a team named 'Commercial Services'. At the top, it says 'It's time to have your say!' and 'Here's 7 questions for you with the option to add up to 8 ideas or comments'. Below this, there are eight question cards, each with a progress bar and a 'Win, praise or idea' or 'Comment or idea' input field. The questions are: COMMUNICATION (75%), CUSTOMER VALUE (75%), TEAMWORK (25%), SUPPORTED (50%), PROJECT CRM (80%), VALUES (52%), STRATEGY (27%), and OVERALL (55). An overlay window titled 'SUBMISSION STATUS' is shown in the foreground, indicating that the submission is 'Could be even better' and providing specific feedback on the lowest-rated question.

See your org chart come to life with real-time results

Delivering you an interactive new way to view your survey results

The Heatmap Node View provides a visual of your entire organisation, allowing you to explore your survey results across every team, department and area.

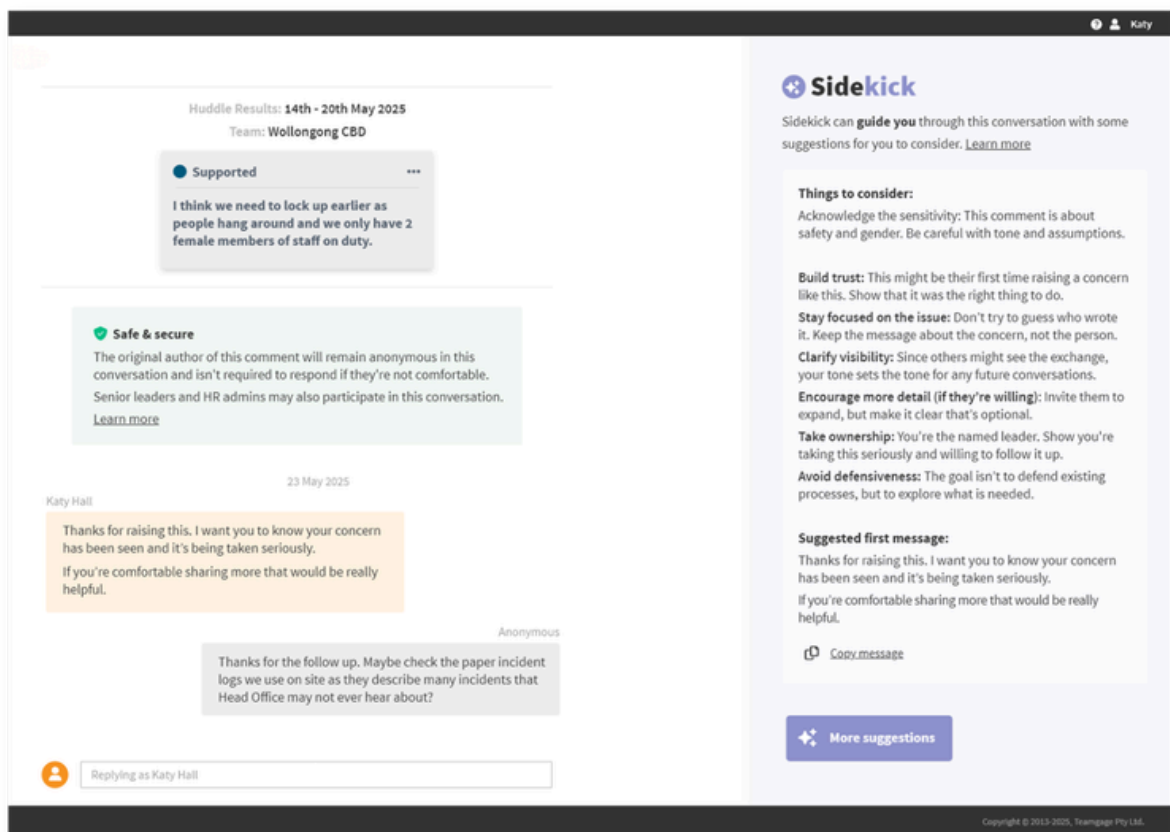

Why settle for static spreadsheets, when you can gain the deep insights and visibility you need in a more engaging way?!

NOW LIVE

Turn survey responses into conversations

Creating an additional secure channel for you to follow up on feedback

We know that survey responses can so often be worth following up on. Which is why you can now click reply to gather more insight, share context and provide answers, all in a secure conversation with an anonymous employee.

Plus, with Sidekick AI, you'll receive guidance on what to consider when replying, along with a suggested response to help you craft the perfect message. This allows instant action and follow up, and builds trust that the employee voice is being heard and considered.
