

Neon & Blown Glass: Illuminated Sculptural Possibilities ✨💡🔥

Class Overview:

⚡ Discover the creative synergy between glassblowing and neon in this intensive four-day workshop. Designed for those eager to explore the sculptural and coloring potential of molten glass paired with neon illumination, this course offers a unique opportunity to create luminous, atmospheric artworks that blend form, color, and light. 🌈

What You'll Learn:

- **Glassblowing & Sculptural Techniques:** Begin by designing or experimenting, with the aid and instruction of trained glassblowers. Working with molten glass, focusing on shaping and coloring techniques to create dynamic forms.
- **Neon Bending & Plasma Illumination:** Dive into neon bending with a focus on single-electrode (plasma) techniques, transforming your glass sculptures into illuminated masterpieces.
- **Workshop Processes:** Get an introduction to the tools, layouts, and workflows of both the glassblowing and neon bending studios.

Course program:

- 🌟 **Day 1 – Glassblowing Workshop:** Begin with a full day in the hot shop, sculpting and coloring glass forms that will become the foundation of your illuminated sculptures. This part of the course will be held by Billy Crellin at Studio Dokola in West Footscray.
- 💡 **Days 2-4 – Neon Workshop:** Transition into the neon studio to bring your creations to life! Learn plasma and single-electrode techniques, exploring how light interacts with shape and color to produce glowing, kinetic masterpieces. You will be guided by master bender Stephen Cole at Cole's Neon Workshop in Bayswater.

Class Outcomes:

By the end of the workshop, you'll have:

- ✨ Two or more glowing, sculptural works of art.
- ✨ A comprehension of glassblowing and neon bending techniques.
- ✨ A format for continuing to explore the interplay of glass and light in your creative practice.

Level:

🎓 Open to creatives with sculptural or material knowledge and beginner makers looking to push their skills to the next level.
