

SMART WEDGE CLAMP

THE ULTIMATE GUARDING FASTENER

The SmartWedge Clamp is designed to remain securely in place while allowing for the quick and easy removal and replacement of guards. This fastener ensures that you never lose your guard locking mechanism, and ensures compliance with relevant standards.

BENEFITS OF SMART WEDGE CLAMPS

- › No hassle guard installation mechanism pivots open and closed with no loose parts
- › Install guards using Smart Wedge Clamps in less than 15 seconds
- › Guards can be removed easily for maintenance
- › Zinc plated for durability (also available in stainless steel)
- › Patented design uses a cable tie to ensure the Wedge Clamp remains locked securely in place

Assembly includes: Smart Wedge Clamp, nut, lock washer, and cable tie
