

Is your organisation ready for Martyn's Law?

MAVAS™ - Mass Audio Visual Alerting System

MAVAS combines audio, visual & digital technologies into one intelligent control platform.

Protect Premises
Stay Compliant
Save Lives

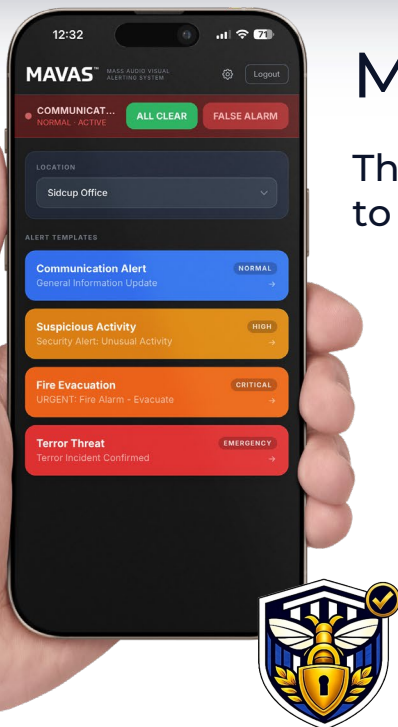

Mobile App Triggering

The MAVAS app gives authorised users the ability to trigger critical alerts at the touch of a button.

- Instant alert activation
- Secure role-based permissions
- Remote emergency control
- Real-time Incident response

Create predefined emergency alerts with the MAVAS Alert Builder, aligning each response with your procedures, locations and connected systems.

Edge Servers from

Clarity in Communications

MAVAS distributes critical alerts across displays, mobile devices, PCs, access control and other connected systems.

Speakers Induction Loop BodyCam Access Control

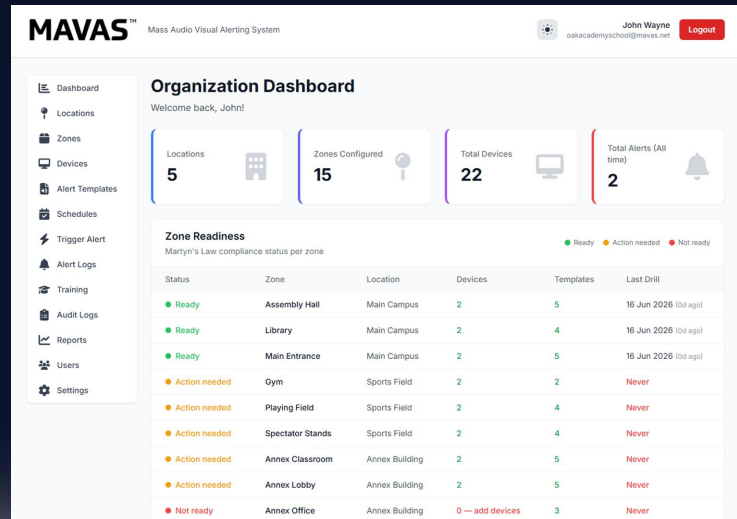

Cloud Dashboard Management

Manage locations, users, devices, zones and alerts from a powerful cloud dashboard.

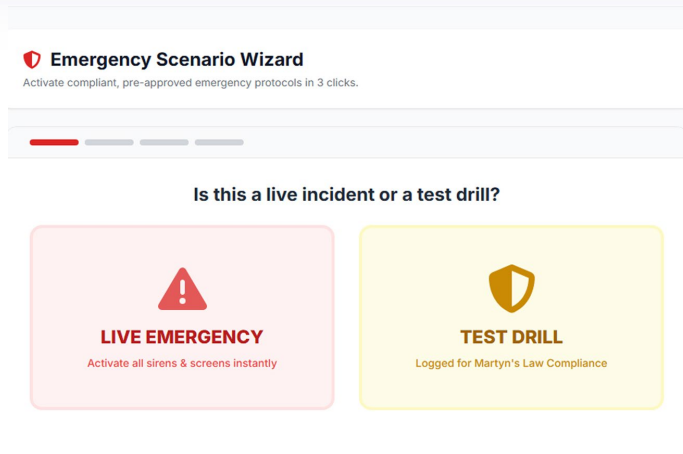

Monitor system status, readiness and alert activity across your entire estate.

Create and deploy predefined alerts to deliver the right message to the right people and places.

The MAVAS interface provides complete centralised operational oversight, with intuitive controls designed for speed, clarity & reliability.

- Multi-site management
- Live system status monitoring
- User & permissions control
- Centralised alert management
- Secure cloud accessibility
