

Tigo Energy Intelligence (EI) Residential Solar Solution

Inverters, batteries, optimizers and monitoring for homeowners across the US.

FAST

- Simple installations so your system is operational in less time
- Tigo components are plug and play with each other and panels
- Commissioning the system takes minutes

FLEXIBLE

- Tigo optimizers increase energy production, reduce shade impacts
- Panels can be arranged to fit your desired rooftop layout
- Battery storage powers essential loads or the whole home
- Intelligent battery operations generate utility bill savings

DEPENDABLE

- All Tigo products include the longest warranties in the industry
- View system performance anytime in the Tigo EI App
- Tigo has been in the solar business for more than 13 years

Tigo®

Get the most from your solar investment

Optimizers increase production by 5-15%

Tigo optimizers minimize the effects of shade, dust, dirt, debris, and mixed orientations.

Battery power for when the grid is down

Battery storage to power your whole home or essential loads and utilize energy when it's cheapest.

Tigo optimizers

For panels up to 700W

Optimizers connect to each solar panel to maximize the energy production of your system, enable module-level monitoring, and meet safety requirements.

EI Battery

10kWh per enclosure

A modular energy storage system with Lithium Iron Phosphate (LFP) batteries - a safer and more durable battery chemistry.

EI Inverter

3.8kW, 7.6kW and 11.4kW options

Orchestrates energy production and consumption and monitors each major component of the system.

ATS

50A and 200A options

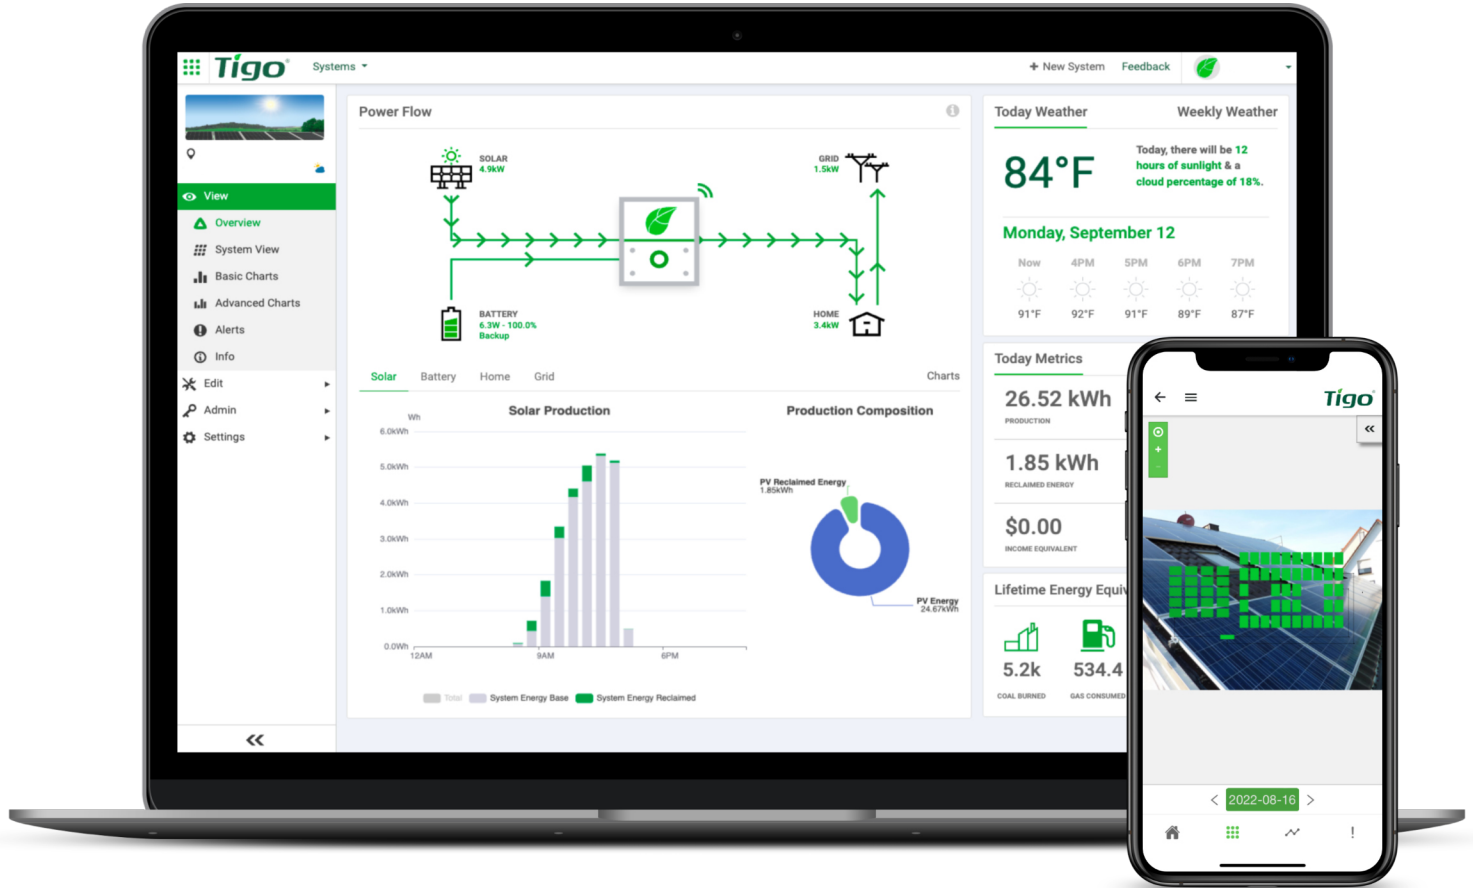

The ATS senses grid loss and safely switches from grid + solar/ battery to solar/battery only.

Tigo®

Get peace of mind with the Tigo EI App

The most powerful solar monitoring and data platform available

Chart production

View real-time and historical energy output, including Reclaimed Energy from the optimizers.

View the key components

Including the performance of each module, inverter, battery, energy meter, and more.

All the data in one spot

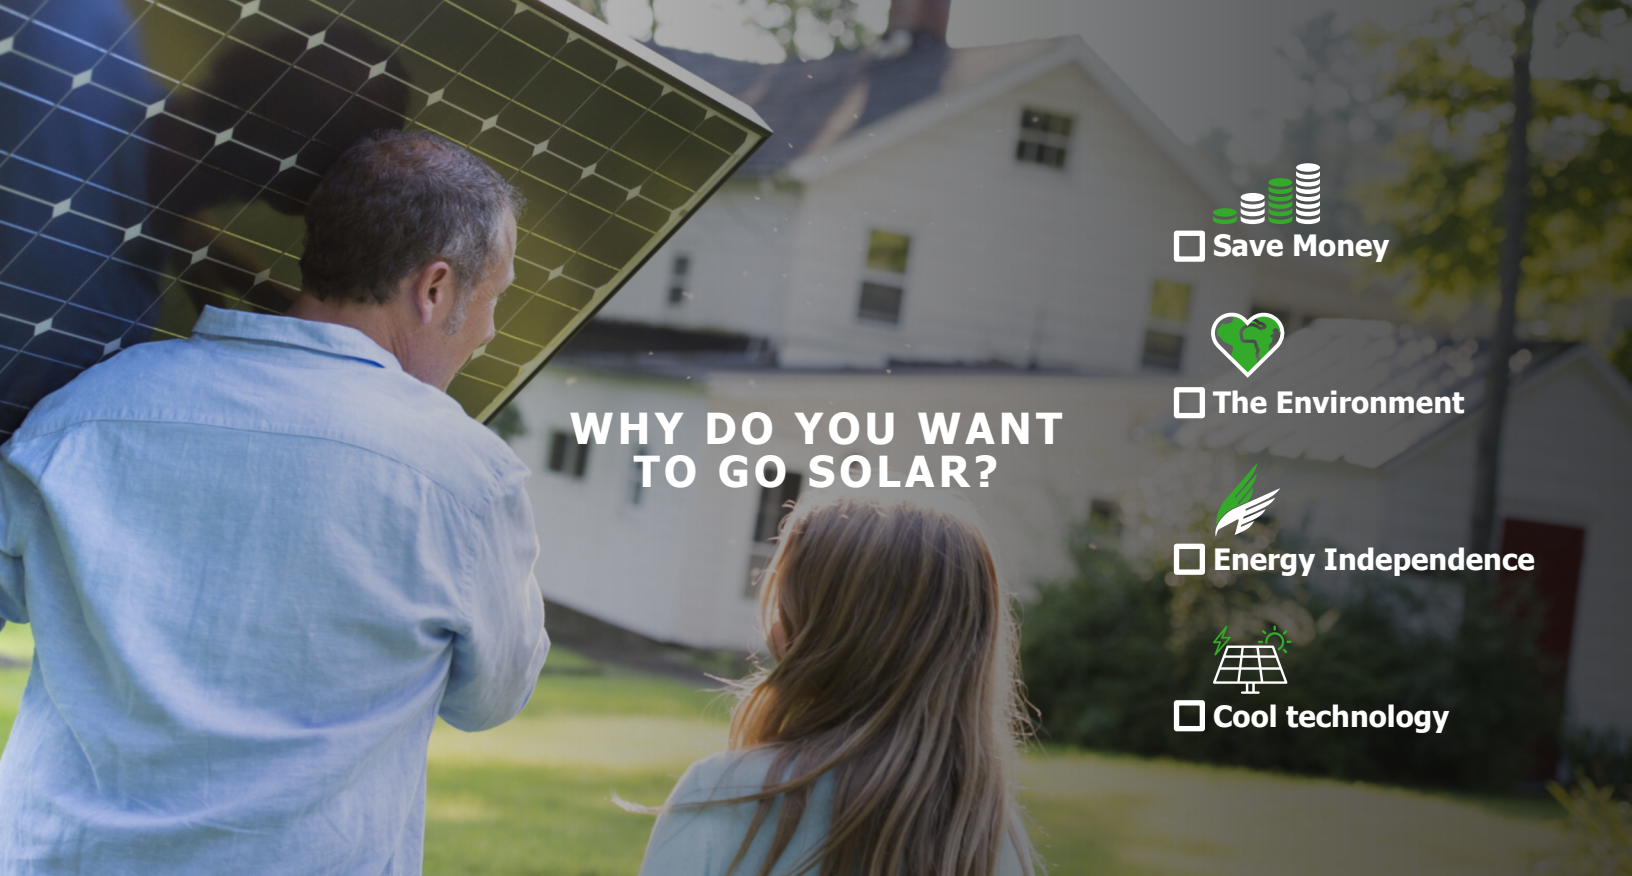

View the charts, performance, layout, and more on your desktop or download the Tigo EI App to view it on your phone.

WHY DO YOU WANT TO GO SOLAR?

☐ Save Money

☐ The Environment

☐ Energy Independence

☐ Cool technology

GO SOLAR WITH TIGO

TRUSTED AROUND THE WORLD, MONITORING >1GWH DAILY SOLAR PRODUCTION

About Tigo

Founded in 2007, Tigo is a worldwide leader in the development and manufacture of smart hardware and software solutions that enhance safety, increase energy yield, and lower operating costs of residential, commercial, and utility-scale solar systems. Tigo combines its Flex MLPE (Module Level Power Electronics) and solar optimizer technology with intelligent, cloud-based software capabilities for advanced energy monitoring and control. Tigo MLPE products maximize performance, enable real-time energy monitoring, and provide code-required rapid shutdown at the module level. The company also develops and manufactures products such as inverters and battery storage systems for the residential solar-plus-storage market.
