

PVC & POLY NIPPLES

Poly, PVC, and CPVC Nipples offer durable, chemical-resistant solutions for fluid handling. Ideal for irrigation, plumbing, and industrial use, they provide easy installation and long-lasting performance—whether you need lightweight poly for low pressure, versatile PVC for general use, or heat-resistant CPVC for demanding applications.

RUSCO'S POLY NIPPLES ARE
PROUDLY MADE IN THE U.S.A.

POLY NIPPLES

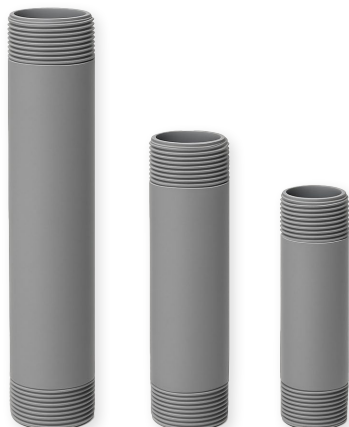

- ▶ Corrosion-resistant, ideal for environments where metal fittings would degrade.
- ▶ Great for low-pressure systems such as irrigation and water transfer.
- ▶ Compatible with a wide range of non-aggressive chemicals.
- ▶ Lightweight and easy to install, reducing labor and system weight.
- ▶ Cost-effective for non-critical fluid connections.
- ▶ Proudly made in the U.S.A. 

PVC NIPPLES

- ▶ Versatile and durable, suitable for residential, commercial, and light industrial use.
- ▶ Excellent resistance to many non-corrosive chemicals.
- ▶ Lightweight construction simplifies handling and installation.
- ▶ Smooth interior walls improve flow and reduce buildup.
- ▶ Performs well across a range of pressures and temperatures.

CPVC NIPPLES

- ▶ Designed for high-temperature applications including hot water and process fluids.
- ▶ Superior chemical resistance for harsh or industrial environments.
- ▶ High mechanical strength and rigidity under stress.
- ▶ Trusted for use in critical and demanding systems.
- ▶ Long service life, even in aggressive conditions.

PVC & POLY PRODUCT LIST

CPVC Nipples

For hot water applications. Used to connect CPVC pipes and fittings in plumbing systems.

SCH 80 PVC Nipples | White And Gray

Used in plumbing and irrigation systems to connect two female threaded components.

PVC & CPVC Nipples Are Non-Refundable

Polynipples

Used in irrigation water supply lines to join fittings together.

Not intended for constant pressure
