AMZ Agency Academy

OFFICIAL CERTIFICATION

Jon and his team have been great from the start!

Gracious trial period to get our toes wet with their platform, loads of training materials once we decided to go all in, quick communication by email as well as slack, quick turn around on reports, and they've even helped with creating new custom reports and new views.

We will continue using Zonguru undoubtedly for the foreseeable future.

Rob Zawadski

AMZ Advisers

For a newly founded agency, ZonGuru has been such an amazing partner right out of the gate...

Their software functionality and data is invaluable for the sellers we manage, and their entire team has been both incredibly helpful, and responsive to our every need! It is very apparent that every aspect of their technology was built by sellers as it has exactly what a seller needs to not only manage, but grow their business significantly. Finally, their structured data-backed approach and simple integrations make adding and managing new clients a breeze!
