# Manuel Collas de La Roche

“The better world to which we all aspire is within our reach. Deeply humanitarian, I am convinced that together we can move mountains by providing concrete solutions to tomorrow’s challenges. In 2016, driven by the desire to take part in this movement of awareness, I launched the Better World Fund. **Yes, there is hope.**

Everywhere in the world, women and men are creating, innovating, and taking action for climate change, social inequalities, culture, and education. The Better World Fund’s ambition is to highlight and financially support these actions that give hope. The power of art seemed to me an obvious way to raise awareness and inspire global world citizens to act for the future of our planet.”
