

INNOVATIONS DISCLOSURE FORM
“OUTLINE” PROVISIONAL PATENT APPLICATION

Date:

[Click here to select today's date.](#)

Inventor Name(s):

[Click here to enter the full name for each proposed inventor. Separately, provide a current inventor profile form for each proposed inventor \(see the last page of this form\).](#)

Title:

[Click here to enter a proposed title of your disclosure in English.](#)

Brief Description of Idea:

[Click here to provide a brief \(4-5 sentences\) summary of your invention. Please identify the primary novel features of your invention that are not available in the conventional technology.](#)

Drawings:

[Click here to create or paste drawings that illustrate aspects of your invention. Or attach separate pages, as needed.](#)

Detailed description of idea/process/invention (attach any additional disclosure materials that you have developed to describe the subject matter of your invention.):

[Click here to describe your invention in detail using text and at least one figure. Describe and/or show the contextual environment, any unique physical features or functionality, and/or any preferred embodiments.](#)

Background:

[Please describe the problem solved by your invention. Describe conventional solutions to this problem, including the disadvantages or shortcomings of the conventional solutions. Cite any relevant references which describe the conventional solutions.](#)

Improvements:

[Click here to describe any advantages that your invention provides compared to the conventional technology.](#)

Alternative Embodiments:

[Please describe any alternative ways of making and/or using your invention. Are there other components that could be used to make your invention? Is your invention applicable to any other areas of technology?](#)

Competitive Implementations:

[Please describe any alternative ways of making and/or using your invention. Are there other components that could be used to make your invention? Is your invention applicable to any other areas of technology?](#)
