UX Designer

Versatile and curious UX designer who prioritizes research to bolster user-driven decisions. Enthusiastic team player who seeks out problem solving opportunities in a collaborative environment. Competitive spirit that fuels growth as a designer and a questioning nature.

Looking to enhance accessibility and continue honing product design skills. Happy to operate in a fast paced environment that still creates learning opportunities and reflection for future growth.

EMPLOYMENT

Thermo Fisher Scientific

Carlsbad, CA - Remote

UX Design Intern (Sept 2021 - Sept 2022)

Junior UX Designer (Sept 2022 - Sept 2023)

- Wireframed and designed an overhaul of the e-commerce experience. Collaborated with stakeholders and development teams to implement designs during two week sprints.
- Created documentation and designed website components on marketing pages.
- Assessed and aligned UI/UX guidelines on 47 marketing pages before launch.
- Oversaw user tests as an user experience testing lead. Conducted and presented research to fuel data-driven decisions and validate designs.
- Upheld the in-house design system and advocated for user experience in stakeholders conversations regarding new site proposals.

Celeste Health Initiative

San Diego, CA - Remote

UX Design Intern (July 2021 - Sept 2021)

- Implemented UI design for data analysis software.

EDUCATION

University of California San Diego

San Diego, CA

B.S. Cognitive Science with Design and Interaction specialization

2017-2022

- TA for DSGN 100 Fall '22; Led discussion sections and advised on prototyping projects.
- Led a team effort utilizing React to create a web application under a two week deadline.
