

BETA[®]

*Outsource Your Substation
Builds with Certainty*

High-Voltage Turnkey EPC

We're Building the Power Grid of Tomorrow—Sustainably

Interconnecting 6,000+ MW in renewable energy projects to the U.S. power grid.

Protecting plant and animal species and mitigating environmental impacts at jobsites.

Giving back to our communities through fundraising, sponsorships, and volunteering.

Beta and the Crest Industries Family of Companies are carbon negative for all scope 1 and 2 emissions.* Learn more at betaengineering.com/sustainability.

**Based on 2021 data*

At Beta Engineering, we understand how much of a headache project execution can be with limited resources. You deserve a proven partner that will deliver your project—built to your standards, on budget and on time.

Find out how you can achieve your power goals with our substation and transmission solutions:

Turnkey EPC

Managing limited resources or a complex project?

Our experienced team works with you to engineer, procure, and construct a solution that looks and performs exactly as you expect.

Factory-Built Substations

Facing aggressive in-service dates and capital constraints? Agile by Beta® is a design-build approach that leverages Factory-Built Substations to improve schedule certainty and reduce risk.

Engineering Services

Looking for high-voltage engineering expertise? Our civil, electrical, and substation engineers provide quality designs according to your standards and specifications.

Celebrate a project that looks and performs just the way you want.

EPC of an underground 69/12kV GIS substation and park in California

Agile EPC of a 138/34.5kV substation for a 125MW solar park in Louisiana

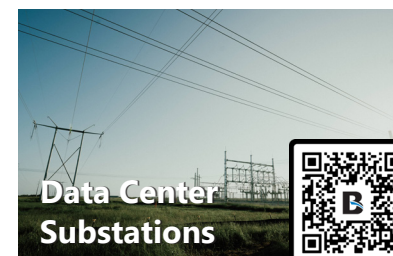

EPC of a 7.3MW/14.6MWh battery energy storage system (BESS) in California

EPC of a 115kV switchyard for a 150MW solar park in Texas

EPC of a flexible AC transmission system (FACTS) involving two 300 MVAR 138/15kV static VAR compensators in Illinois

Turnkey project solutions to expedite data center connections to the grid

Trusted by Utilities for 50+ Years

With Beta, enjoy the peace of mind that comes from working with an expert team. We draw on our 50+ years of experience to help you deliver on your projects. **In the past two decades, more than 75% of our projects have been performed for repeat customers.**

Licensed PEs in the 48 contiguous states

2+ million hours no lost time

EMR: 2026: 0.69 2025: 0.64 2024: 0.66
