- Best Practices, Processes & Continuous Improvement Support
- Provide your feedback on BizChat

Project Lifecycle:

1. Initiation Phase

PMO Professionals will work with sponsors and key stakeholders to gather high-level requirements and a high-level project economic evaluation.

2. Planning Phase-Planning, Scheduling, Budgeting

Define program execution, monitoring, and control.

3. Execution Phase

Coordinate resources and manage stakeholder expectations.

4. Monitoring and Control phase

Monitor performance, track metrics, and recommend corrective actions.

5. Closeout Phase

Formal review and approval are conducted to ensure all project objectives have been met, and the project closer is acceptable. All outstanding issues are resolved or tracked for future resolution.
