

Department: Manufacturing

Title: Repair Technician

Managed By: Repair Station Manager

Position Summary:

Avionic Instruments LLC is a recognized leader in the design, development and manufacture of advanced airborne-qualified power conversion and control equipment. We currently have an outstanding opportunity for an individual to assume a role as a Repair Technician with competitive pay and growth potential. The ideal candidate will be a dedicated self-starter who can work both independently and in a team environment.

Responsibilities:

Primary duties include, but are not limited to, the following:

- Be able to independently test, troubleshoot, diagnose, and repair electronics product.
- Skilled to troubleshoot down to PC-Board and component level.
- Independently repair customer returned equipment on time and with high quality.
- Work well in a team environment, with other technicians, customer service reps, and quality.
- Support required company performance metrics such as On Time Delivery (OTD) and Turn Around Time (TAT).
- Completion of Training is targeted to be 3 months. Rectification (if applicable) is required every two years unless otherwise specified in the course itself

Qualifications:

- Associate degree or 2+ years of related work experience as technician in electronics field.
- Able to read schematic and bill of materials, understand electrical circuits
- Able to trouble shoot failed electronics down to component level
- Know how to use test equipment such as oscilloscope, power analyzer, multiple-meter, etc.
- Able to perform re-work tasks to remove and re-install SMT and through-hole components with solder iron

Working Conditions:

- Works standing and/or seated while performing duties.
- Handles medium to heavy weight material.
- ESD control training and compliance with ESD policies may be required.
- Safety glasses with side shields required.
- No drinking or eating in work areas.
- FAA drug test requirements apply.
- Must maintain good housekeeping practices.

Physical Demands:

With or without reasonable accommodation:

While performing the duties of this job, the employee is occasionally required to stand, walk, sit, use hands to finger, reach with arms and hands, climb stairs, stoop, kneel, crouch, talk or hear. The employee must occasionally lift and/or move up to 30 lbs.

International Trade Compliance Requirements

Due to the potential exposure to ITAR-controlled data and export control regulations, the applicant in this role must be a qualified U.S. person as designated under INA, 8 U.S.C. 1324b(a)(3) or be eligible for any required authorizations from the U.S. Government.

Disclaimer:

The above information on this description has been designed to indicate the general nature and level of work performance by employees within this classification. It is not designed to contain or be interpreted as a comprehensive inventory of all duties, responsibilities and qualifications required of employees assigned to this job.

Avionic Instruments is an Equal Opportunity Employer and encourages the application of female, minority, disabled and veteran candidates. Due to the potential for exposure to ITAR controlled data, the incumbent in this role must be a US Person (US Citizen or US Permanent Resident). Interested candidates should submit their resume and salary requirements.
