

**Department: Manufacturing**

**Managed By: Operations Manager**

**Job Title: Production Operator- Battery**

Acme Aerospace, a business unit of Avionic Instruments, designs, manufactures, and services batteries and energy storage electronics that power mission critical operations for commercial, military and general aviation. Acme's advanced power systems deliver ultra-reliable start-up, back-up and emergency power for the world's most demanding customers, in the harshest environments and under the most hazardous conditions. Avionic Instruments is a wholly owned subsidiary of TransDigm.

**Job Summary:**

Production Operators support day-to-day manufacturing operations by performing basic assembly tasks involved in the production of battery cells. This is an entry-level position requiring minimal prior experience. The role focuses on following established procedures, maintaining safety and quality standards, and supporting production goals in a fast-paced factory environment.

**Essential Responsibilities:**

- Perform basic manual and machine-assisted tasks in battery cell manufacturing and assembly
- Load and unload materials, components, and finished parts
- Operate simple production equipment according to written and verbal instructions
- Inspect parts visually for defects and report issues to supervisors
- Package, label, and move materials in accordance with work instructions
- Maintain a clean and organized work area (5S standards)
- Follow all safety, environmental, and quality procedures always
- Wear required personal protective equipment (PPE)
- Meet production targets and follow shift schedules
- Support team members and supervisors as needed
- Perform basic computer tasks as needed
- Ability to follow instructions and standard operating procedures
- Basic reading, writing, and counting skills
- Ability to work in a team environment
- Willingness to work overtime or shift work as required

**Qualifications:**

- High School diploma or commensurate level of related experience
- Ability to sit and stand for extended periods
- Ability to lift up to 40lbs
- Ability to perform repetitive motions
- Comfortable working in a manufacturing environment with loud noises, machinery, and controlled chemicals
- Must be able to effectively listen, understand, and communicate with team members at all levels

### **Preferred Qualifications:**

- Prior work experience in a manufacturing assembly, warehouse, or production environment
- Experience with 5S, lean manufacturing, or clean/controlled environments
- A demonstrated history of attendance and strong punctuality/work ethic
- Ability to work overtime, weekends, or rotating shifts as required
- Experience handling chemicals, batteries, or electronic components

### **Physical Demands:**

Must be able to support standard shift hours, Monday through Friday. Must also be able to support overtime on weekdays or weekends as required to support business needs. Must be able to lift and/or move up to 40 lbs. and be able to sit and/or stand for long periods of time. The physical demands described here represent those that an employee must meet to perform the essential functions of this job successfully. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

### **International Trade Compliance Requirements:**

Due to the potential exposure to ITAR-controlled data and export control regulations, the applicant in this role must be a qualified U.S. person designated under INA, 8 U.S.C. 1324b(a)(3) or be eligible for any required authorizations from the U.S. Government.

### **Work Environment:**

While performing the duties of this job, the employee is exposed to weather conditions prevalent at the time and an air-conditioned and heated office. The noise level is occasionally high.

### **Disclaimer:**

The above information on this description has been designed to indicate employees' general nature and level of work performance within this classification. It is not designed to contain or be interpreted as a comprehensive inventory of all duties, responsibilities, and qualifications required of employees assigned to this job.

Acme Aerospace is an Equal Opportunity Employer and encourages the application of female, minority, disabled, and veteran candidates. Candidates must be able to perform essential responsibilities with or without reasonable accommodations. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin. Interested candidates should submit their resumes and salary requirements.
