

Electronics Recycling Event for Village of East Aurora Residents coming April 20-24, 2026

The Village of East Aurora is excited to announce a Village-wide residential electronics pick-up event. The event is scheduled for April 20-24 and pick-up will be once per street. The Department of Public Works trucks will be out that week picking up your old electronic items for recycling. Please be sure to put them out to the curb next to (but separated from) your garbage and recycling.

We hope this event will help our residents to do some spring cleaning while providing a responsible recycling option to better our environment.

Please note the following requirements included below (a more detailed list of acceptable/unacceptable items is also on the Village Website).

- ~ MAXIMUM of 5 tube televisions -OR- 2 Console TV's per residence; all other electronics are unlimited.
- ~ Like garbage pick-up, anything unacceptable for electronic recycling will be left behind with a neon sticker. Residents will need to bring those items back inside and find other disposal options.

WHAT ELECTRONICS ARE ACCEPTED?

UNACCEPTABLE ELECTRONICS:

- ✗ Batteries (alkaline, wet cell, dry cell)
