

HOME REHABILITATION PROPERTY TAX INCENTIVE

HEALING OUR HOUSING STOCK

The Home Rehabilitation Tax Incentive is designed to encourage the rehabilitation and reconstruction of vacant and abandoned properties.

Qualifying properties on the Municipality’s Vacant and Abandoned Buildings registry may receive a **10-year exemption for restoring the structure as a usable home.**

HOW DOES THE INCENTIVE WORK?

Owners of residential properties listed on the Vacant and Abandoned Buildings registry may receive the exemption by investing 15% of the assessed value of the building (or \$3,000 per housing unit) toward restoring habitability.

Any new housing units created in conjunction with the rehabilitation work (for example, converting a vacant single-family home into a duplex) can also qualify.

The exemption lasts for 10 years, and applies only to residential buildings.

The rehabilitation work must address any code issues that prevent the home from being safely inhabited.

The land remains taxable.
