

Lychee

Boba POPS Lychee are like a tropical kiss wrapped in a jewel! The flavor is a luscious, floral sweetness that's so exotic it feels like you've just stumbled into a secret island paradise. Imagine a pear and a rose had a baby, and that baby grew up to be a little bit of heaven in a bite-sized fruit. It's sweet, but with a touch of perfume-like elegance, and when you bite into it, it's as if you're tasting the essence of summer nights and warm breezes. The texture is like a plump grape with a bit of a silky crunch... and the flavor? It's like a gentle, fruity hug that whispers, "I'm special, and I'm here to make your taste buds dance." Sweet, fragrant, and a little bit mysterious!
