

Building Riches Across Every Table

Every hand you play could build your fortune. MONOPOLY Building Riches Progressive brings a whole new kind of energy to the pit—one jackpot, shared across the tables you already love. Blackjack, Hold'em, *Three Card Prime*, *High Card Flush* and more all feed into a single, ever-growing prize, turning every seat on the floor into a shot at the big win.

Qualify with the trigger displayed on screen for your game (ie. a Blackjack trigger might be a Player Blackjack), and you're in. Qualifying players step into the game as their own designated token on the felt, roll the dice, and start building properties round after round. The more properties you build, the bigger the prize—but build the golden hotel, and the jackpot is yours!

Fast, social, and easy to follow, MONOPOLY Building Riches Progressive delivers table-wide excitement powered by the nostalgia of MONOPOLY, one of the world's most beloved games, and links seamlessly across nearly any Galaxy Gaming progressive-enabled table with *Galaxy Link*.
