

Ante & Play

These are wagers played against the dealer. The dealer needs at least a Queen or better to qualify. If the dealer does not qualify the player wins even money on the Ante, and the Play bet pushes. If the dealer does qualify, the hands are compared, and the best 3-card hand will win.

The Ante and Play wagers pay even money. Players with a Straight or better will receive an additional Ante Bonus, regardless of the outcome!

Pair Bonus

This wager wins if the player's hand contains a Pair or better.

Prime

Prime pays if the player's three-cards are all the same color. If the dealer's cards are also that same color, it pays more.

All 6

Wins against the payable for a Three-of-a-Kind or better in the 6-card hand, formed by the player's 3-card hand plus the dealer's 3-card hand.

Progressives

Choose from any of Galaxy's available poker-based progressive options in a variety of configuration: single jackpot, multi-denom, standalone, linked, and more!
