This Notice is required by a federal law called the Health Insurance Portability and Accountability Act, commonly known as HIPAA. The Court Officers Benevolent Association of Nassau County, Inc. Health & Welfare Fund ("Fund") is required by law to take reasonable steps to ensure the privacy of your personally identifiable health information and to inform you about:

1. The Fund's uses and disclosures of Protected Health Information (PHI),
2. Your rights to privacy with respect to your PHI,
3. The Fund's duties with respect to your PHI,
4. Your right to file a complaint with the Fund and with the Secretary of the United States Department of Health and Human Services (HHS), and
5. The person or office you should contact for further information about the Fund's privacy practices.

This Notice applies to your PHI used or disclosed by the Fund as well as entities designated as "business associates" of the Fund. Your Protected Health Information

Protected Health Information (PHI) Defined

The term "Protected Health Information" (PHI) includes all individually identifiable health

information related to your past, present or future physical or mental health condition or to payment for health care. PHI includes information maintained by the Fund in oral, written, or electronic form.

Use or Disclosure for Which Your Authorization or Consent is Not Required

When the Fund May Use or Disclose your PHI

Under the law, the Fund may disclose your PHI without your consent or authorization, or the opportunity to agree or object, in the following cases:

- At your request. If you request it, the Fund is required to give you access to certain PHI in order to allow you to inspect and/or copy it.
- As required by HHS. The Secretary of the United States Department of Health and Human Services may require the disclosure of your PHI to investigate or determine the Fund's compliance with the privacy regulations.
- For treatment, payment, or health care operations. The Fund and its business associates will use PHI in order to carry out treatment, payment, or health care operations.

Treatment is the provision, coordination, or management of health care and related services. For example, the Fund may disclose PHI to doctors, nurses, technicians, or other personnel, including people outside our office, who are involved in your medical care and need the information to provide you with medical care.

Payment includes but is not limited to actions to make coverage determinations and payment. For example, the Fund may use PHI to pay claims from your health care provider. If we contract with third parties to help us with payment operations, such as a third-party claim administrator, we will also disclose information to them, and they may conduct these activities on our behalf. These third parties are known as "business associates."

Health care operations include but are not limited to quality assessment and improvement, underwriting, premium rating, and other insurance activities relating to creating or renewing insurance contracts. It also includes disease management, case management, conducting or arranging for medical review, legal services, and auditing functions including fraud and abuse compliance programs, business planning and development, business management, and general administrative activities. For example, the Fund or its third-party administrators may use information about your claims to refer you to a disease management program, a well-pregnancy program, project future benefit costs or audit the accuracy of its health care payments.

Note: At no time will the Fund disclose information for employment-related actions or decisions or use your genetic information for underwriting purposes.

Disclosure to the Fund Sponsor

The Fund will also disclose PHI to certain individuals who work for the Fund Sponsor for purposes related to treatment, payment, and health care operations, and has amended the Fund Documents to permit this use and disclosure as required by federal law. For example, we may disclose information to certain individuals to allow them to decide appeals of eligibility determinations, negotiate renewals of insurance contracts or audit the accuracy of health care payments.

In addition, the Fund may use or disclose "summary health information" for the purpose of obtaining premium bids or modifying, amending, or terminating the group health plan. Summary information summarizes the claims history, claims expenses or type of claims experienced by individuals for whom the Fund has provided health benefits.

Other Use or Disclosure of your PHI for Which Consent, Authorization or Opportunity to Object is Not Required

The Fund is allowed under federal law to use and disclose your PHI without your consent or authorization under the following circumstances:

1. When required by applicable law.
2. Public health purposes. To an authorized public health authority if required by law or for public health and safety purposes. PHI may also be used or disclosed if you have been exposed to a communicable disease or are at risk of spreading a disease or condition, if authorized by law.
3. Domestic violence or abuse situations. When authorized by law to report information about abuse, neglect, or domestic violence to public authorities if a reasonable belief exists that you may be a victim of abuse, neglect, or domestic violence. In such case, the Fund will promptly inform you that such a disclosure has been or will be made unless that notice would cause a risk of serious harm.
4. Health oversight activities. To a health oversight agency for oversight activities authorized by law. These activities include civil, administrative, or criminal investigations, inspections, licensure, or disciplinary actions (for example, to investigate complaints against health care providers) and other activities necessary for appropriate oversight of benefit programs (for example, to the Department of Labor).
5. Legal proceedings. When required for judicial or administrative proceedings. For example, your PHI may be disclosed in response to a subpoena or discovery request that is accompanied by a court order.
6. Law enforcement health purposes. When required for law enforcement purposes (for example, to report certain types of wounds).

7. Law enforcement emergency purposes. For certain law enforcement purposes, including identifying or locating a suspect, fugitive, material witness or missing person, and disclosing information about an individual who is or is suspected to be a victim of a crime.
8. Determining cause of death and organ donation. When required to be given to a coroner or medical examiner to identify a deceased person, determine a cause of death or other authorized duties. We may also disclose PHI for cadaveric organ, eye, or tissue donation purposes.
9. Coroners, Medical Examiners and Funeral purposes. We may release Health Information to a coroner or medical examiner. This may be necessary, for example, to identify a deceased person or determine the cause of death. When required to be given to funeral directors to carry out their duties with respect to the decedent.
10. Research. For research, subject to certain conditions. For example, a research project may involve comparing the health of patients who received one treatment to those who received another, for the same condition. Before we use or disclose Health Information for research, the project will go through a special approval process. Even without special approval, we may permit researchers to look at records to help them identify patients who may be included in their research project or for other similar purposes, as long as they do not remove or take a copy of any Health Information.
11. Health or safety threats. When consistent with applicable law and standards of ethical conduct, the Fund in good faith believes the use or disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public and the disclosure is to a person who is reasonably able to prevent or lessen the threat, including the target of the threat.
12. Workers' compensation programs. When authorized by and to the extent necessary to comply with workers' compensation or other similar programs established by law.
13. Specialized Government Functions. When required, to military authorities under certain circumstances, or to authorized federal officials for lawful intelligence, counterintelligence and other national security activities.

Except as otherwise indicated in this Notice, uses and disclosures will be made only with your written authorization, which you have the right to revoke.

Other Uses or Disclosures

The Fund may contact you to provide you with information about treatment alternatives or other health related benefits and services that may be of interest to you.

Additional Restrictions on Use and Disclosure

Some federal and state laws may require special privacy protections that restrict the use and disclosure of certain sensitive health information such as alcohol and substance use disorder, (including Part 2 Programs); biometric information; child or adult abuse or neglect, including sexual assault; communicable diseases; genetic information; HIV/AIDS; mental health; minors' information; prescriptions; reproductive health; and sexually transmitted diseases. In such cases, the Fund will follow the more stringent or protective law, to the extent that it applies.

Note: Information that is disclosed by the Fund in accordance with HIPAA's Privacy Rule is subject to redisclosure by the recipient and may no longer be protected by the Privacy Rule.

Use or Disclosure for Which Your Authorization or Consent is Required

When the Fund obtains or receives a valid authorization for its use or disclosure of PHI, such use or disclosure will be consistent with such authorization. If you have authorized us to use or disclose your PHI for a purpose that requires authorization, you may revoke your authorization in writing at any time. If you revoke your authorization, the Fund will no longer be able to use or disclose PHI about you for the reasons covered by your written authorization. However, the Fund will be unable to take back any disclosures it has already made with your permission. Requests to revoke a prior authorization must be submitted in writing to the Privacy Officer.

The following situations require your authorization:

Use of Psychotherapy Notes

The Fund does not routinely obtain psychotherapy notes. However, if it is necessary to use or disclose them, it must obtain your written authorization. The Fund may use and disclose such notes when needed by the Fund to defend itself against litigation filed by you. Psychotherapy notes are separately filed notes about your conversations with your mental health professional during a counseling session. They do not include summary information about your mental health treatment.

Marketing of PHI

The Fund does not engage in the marketing of your PHI. In any event, before the Fund could market your PHI, it would have to obtain your authorization for any use or disclosure of PHI for marketing purposes and disclose whether remuneration will be received. Note face-to-face communications made by the Fund to you and promotional gifts of nominal value provided by the Fund are not considered as marketing.

Sale of PHI

The Fund does not sell your PHI. In any event, before the Fund could sell your PHI, it would have to obtain your authorization. For this purpose, sale of PHI generally means a disclosure of PHI by the Fund where the Fund directly or indirectly receives remuneration from or on behalf

of the recipient of the PHI in exchange for the PHI but does not include a disclosure of PHI otherwise permitted by HIPAA.

Substance Use Disorder Treatment Records

Substance use disorder treatment records (SUD Records) received from a program covered by 42 CFR Part 2 (a "Part 2 Program"), or testimony relaying the content of such records, shall not be used or disclosed in civil, criminal, administrative, or legislative proceedings against the individual unless based on written consent, or a court order after notice and an opportunity to be heard is provided to the individual or the holder of the record, as provided under law. A court order authorizing use or disclosure must be accompanied by a subpoena or other legal requirement compelling disclosure before the requested SUD Record is used or disclosed.

If the Fund receives SUD Records about you from a Part 2 Program pursuant to a consent you provided to the Part 2 Program to use and disclose your SUD records for all future purposes of treatment, payment or health care operations, the Fund may use and disclose your SUD records for the purposes of treatment, payment or health care operations, as described above, consistent with such consent until the Fund receives notification that you have revoked such consent in writing. When disclosed to the Fund for treatment, payment, and health care operations activities, the Fund may further disclose those SUD records in accordance with HIPAA regulations, except for uses and disclosures for civil, criminal, administrative, and legislative proceedings against you.

Fundraising

The Fund will not use or disclose your PHI (including but not limited to SUD Records) for any fundraising activities whether for the benefit of the Fund, or for or on behalf of others. In any event, before the Fund could use your PHI for fundraising, it would have to obtain your written authorization for such use or disclosure, and with respect to SUD records, give you the opportunity to elect not to receive any fundraising communications.
