STRONG PHYSIQUE

His height of 1.88 meters and his build make him a strong and resilient player; he often wins individual duels and dominates in aerial play. He knows how to use his strength to tussle and maintain possession of the ball.

OFFENSIVE GAME

One of his great virtues is what he contributes offensively. His stride, speed, and ability to break through make him a threat to opponents when he advances along his flank. He reads the play very well to know when to push forward and create an offensive advantage.

AERIAL GAME

He stands out as a defender who excels in aerial play with ease. To his height, he adds remarkable jumping ability and momentum. He is often a threat to opponents in set-piece situations, while defensively he shines at clearing crosses from the flanks.

1V1 DEFENSIVE

Defensively, he stands out as a very secure and intelligent fullback in one-on-one duels. He analyzes his opponents thoroughly to determine whether to hold his position while his teammates fall back or to intercept. He also positions himself well to avoid being outplayed.
